## Report on review of interim condensed consolidated financial statements

To the Council of the International Investment Bank

### *Introduction*

We have reviewed the accompanying interim condensed consolidated financial statements of International Investment Bank (hereinafter, the "Bank") and its subsidiaries (hereinafter, the "Group"), which comprise the interim condensed consolidated statement of financial position as at 30 June 2016 and the related interim condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended and explanatory notes. Management of the Group is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34, *Interim Financial Reporting*. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

### *Scope of review*

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34, *Interim Financial Reporting*.

18 August 2016

Moscow, Russia

**INTERIM CONSOLIDATED STATEMENT OF FINANCIAL POSITION****As at 30 June 2016***(Thousands of euros)*

## 1. Principal activities

These interim condensed consolidated financial statements include the financial statements of the International Investment Bank (the “Bank”) and its subsidiaries. The Bank and its subsidiaries are hereinafter referred together as the “Group”. The International Investment Bank is the parent company of the Group. The list of the Bank's subsidiary is presented in Note 2.

The International Investment Bank (the “Bank”) was founded in 1970 and has operated since 1 January 1971.

The Bank is an international institution operating on the basis of the Intergovernmental Agreement on the Establishment of the International Investment Bank (the “Agreement”) and the Statutes. The Agreement was ratified by the member countries of the Bank and registered with the Secretariat of the United Nations in December 1971. The Bank is primarily engaged in commercial lending for the benefit of national investment projects in the member countries of the Bank and for other purposes defined by the Council of the Bank. The Bank also performs transactions with securities and foreign currency. The Bank operates from its office at 7 Mashki Poryvaevoi St., Moscow, Russia and European regional office in Bratislava (Eurovea Central 1, Pribinova 4, Bratislava, 81109, Slovak Republic.)

On 31 July 2014, the EU Council imposed sectoral sanctions against Russia. The preamble of the Decision of the EU Council of 31 July 2014 (paragraph 9) and Council Regulation (EU) No 833/2014 of 31 July 2014 (paragraph 5), which was developed based on the Decision, emphasize that the sanctions do not cover Russia-based institutions with international status established by intergovernmental agreements in which Russia is one of the parties. Therefore, International Investment Bank is not subject to the restrictive measures.

The Group continues to expand its operations despite the ongoing market volatility in member countries:

- ▶ Hungary re-entered the Bank in 2015 and in 2016 made the ahead-of-schedule final contribution to the Bank's equity. As at the end of June 2016, Hungary's share in the Bank's paid-in capital was EUR 40 million or 12.78%.
- ▶ As a result of the Hungary's re-entering, the respective share of the EU countries in the Bank's equity grew up to 48.72% exceeding the share of the Russian Federation, which decreased to 47.92%.
- ▶ The Bank continues to implement a new corporate governance structure and introduce the respective changes to its constituent documents. Following the signing of the Protocol on introducing changes to the Agreement on the Establishment of the International Investment Bank and the Statutes in the end of 2015, the member countries are currently implementing the respective ratification procedures.
- ▶ The Bank is assigned the following investment grade ratings: BBB- (outlook stable) by Fitch Ratings, Baa1 (outlook stable) by Moody's and A (outlook stable) by Dagong Global Credit Rating. In June 2016, the Bank was assigned the BBB rating (outlook stable) by Standard&Poor's.
- ▶ In June 2016, the Bank concluded Cooperation agreement on fund raising with the Central Bank of Cuba. The document confirms special status of the International Investment Bank on the territory of Cuba.
- ▶ The International Investment Bank completed a large-scale IT-project to upgrade its core banking system (CBS), a digital platform to manage, process and protect the Bank's data. A data-processing center was launched in the International Investment Bank European Regional Office in Bratislava to ensure security and uninterrupted service of the new CBS.

*(intentionally blank)*

*(Thousands of euros)***1. Principal activities (continued)****Member countries of the Bank**

The member countries of the Bank include (share in the paid-in capital of the Bank, %):

<i>Member countries</i>	<b>30 June 2016</b> %	<b>31 December 2015</b> %
Russian Federation	47.923	49.505
Republic of Bulgaria	13.481	13.926
Hungary	12.778	9.899
Czech Republic	9.703	10.023
Slovak Republic	6.862	7.088
Romania	5.895	6.089
Republic of Cuba	1.712	1.769
Socialist Republic of Vietnam	1.172	1.211
Mongolia	0.474	0.490
	<b>100.000</b>	<b>100.000</b>

**Conditions of the Bank's financial and business operations in the member countries**

In the member countries, the Bank is not subject to taxation and enjoys all privileges available to diplomatic representations.

The Group is not subject to regulation by the Central Banks of the member countries, including the country of residence.

**Business environment in the member countries**

Political and economic developments in the Bank's member countries may have an impact on enterprises operating in these countries. Considering this fact, the Group performs its operations with reference to the local specific of its member countries to ensure comprehensive assessment and control of credit and operational risks.

The accompanying interim condensed consolidated financial statements reflect the management's assessment of the impact of the member countries' business environment on the results of operations and financial position of the Group. Future evolution of the conditions in which the Group operates may differ from the assessment made by the management for the purposes of these interim condensed consolidated financial statements.

**2. Basis of preparation****General**

These interim condensed consolidated financial statements have been prepared for the six months ended 30 June 2016 in accordance with International Financial Reporting Standard ("IFRS") IAS 34 *Interim Financial Reporting*, approved by the International Accounting Standards Board.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2015.

**Subsidiary**

The Bank is a parent company of the Group, which owns CJSC IIB Capital (a 100% subsidiary established in 2012 for the purpose of the acting of the Bank, in particular, for the property trust of the Bank) as at 30 June 2016.

(Thousands of euros)

## 2. Basis of preparation (continued)

### Basis of measurement

These consolidated financial statements have been prepared under the historical cost convention with the exception of the financial instruments under fair value convention, the changes of which are translated through profit or loss account for the period, available-for-sale financial instruments also stated at fair value, and buildings and investment property are stated at revalued amounts.

### Functional and presentation currency

Euro (“EUR”) is the Group’s functional and presentation currency as it reflects the economic substance of the underlying operations conducted by the Group and circumstances affecting its operations, because most financial assets and financial liabilities as well as income and expenses of the Group are denominated in EUR.

These interim condensed consolidated financial statements are presented in thousands of euros (“thousands of euros”), unless otherwise indicated.

## 3. Changes in accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended 31 December 2015, except for the adoption of new standards effective as at 1 January 2016. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The nature and the effect of these changes are disclosed below. Although these new standards and amendments apply for the first time in 2016, they do not have a material effect on the interim condensed consolidated financial statements of the Group. The nature and the impact of each new standard or amendment are described below:

### *IFRS 14 Regulatory Deferral Accounts*

IFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of IFRS. Entities that adopt IFRS 14 must present the regulatory deferral accounts as consolidated line items on the statement of financial position and present movements in these account balances as consolidated line items in the statement of profit or loss and OCI. The standard requires disclosures on the nature of, and risks associated with, the entity’s rate-regulation and the effects of that rate-regulation on its financial statements. IFRS 14 is effective for annual periods beginning on or after 1 January 2016. Since the Group is an existing IFRS preparer and is not involved in any rate-regulated activities, this standard would not apply.

### *Amendments to IFRS 11 – Joint Arrangements: Accounting for Acquisitions of Interests*

The amendments to IFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant IFRS 3 *Business Combinations* principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to IFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after 1 January 2016. These amendments do not have any impact on the Group as there has been no interest acquired in a joint operation during the period.

(Thousands of euros)

### 3. Summary of accounting policies (continued)

#### *Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortization*

The amendments clarify the principle in IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets* that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is a part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016. These amendments do not have any impact on the Group given that the Group has not used a revenue-based method to depreciate its non-current assets.

#### *Amendments to IAS 16 and IAS 41 – Agriculture: Bearer Plants*

The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of IAS 41 *Agriculture*. Instead, IAS 16 will apply. After initial recognition, bearer plants will be measured under IAS 16 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of IAS 41 and be measured at fair value less costs to sell. For government grants related to bearer plants, IAS 20 *Accounting for Government Grants and Disclosure of Government Assistance* will apply. The amendments are retrospectively effective for annual periods beginning on or after 1 January 2016. These amendments do not have any impact on the Group as the Group does not have any bearer plants.

#### *Amendments to IAS 27: Equity Method in Consolidated Financial Statements*

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their consolidated financial statements. Entities already applying IFRS and electing to change to the equity method in its consolidated financial statements will have to apply that change retrospectively. First-time adopters of IFRS electing to use the equity method in their consolidated financial statements will be required to apply this method from the date of transition to IFRS. The amendments are effective for annual periods beginning on or after 1 January 2016. These amendments do not have any impact on the Group's consolidated financial statements.

#### *Annual improvements 2012-2014 Cycle*

These improvements are effective for annual periods beginning on or after 1 January 2016. They include:

##### *IFRS 5 Non-current Assets Held for Sale and Discontinued Operations*

Assets (or disposal groups) are generally disposed of either through sale or through distribution to owners. The amendment clarifies that changing from one of these disposal methods to the other should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is therefore no interruption of the application of the requirements in IFRS 5. This amendment must be applied prospectively.

##### *IFRS 7 Financial Instruments: Disclosures*

###### *(i) Servicing contracts*

The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and the arrangement against the guidance for continuing involvement in IFRS 7 in order to assess whether the disclosures are required. The assessment of which servicing contracts constitute continuing involvement must be done retrospectively. However, the required disclosures would not need to be provided for any period beginning before the annual period in which the entity first applies the amendments.

###### *(ii) Applicability of the amendments to IFRS 7 to condensed interim financial statements*

The amendment clarifies that the offsetting disclosure requirements do not apply to condensed interim financial statements, unless such disclosures provide a significant update to the information reported in the most recent annual report. This amendment must be applied retrospectively.

(Thousands of euros)

### 3. Summary of accounting policies (continued)

#### *IAS 19 Employee Benefits*

The amendment clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used. This amendment must be applied prospectively.

#### *IAS 34 Interim Financial Reporting*

The amendment clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the interim financial report (e.g., in the management commentary or risk report). The other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. This amendment must be applied retrospectively.

These amendments do not have any impact on the Group.

#### *Amendments to IAS 1 Disclosure Initiative*

The amendments to IAS 1 *Presentation of Financial Statements* clarify, rather than significantly change, the existing IAS 1 requirements. The amendments clarify:

- ▶ The materiality requirements in IAS 1
- ▶ That specific line items in the statement(s) of profit or loss and OCI and the statement of financial position may be disaggregated
- ▶ That entities have flexibility as to the order in which they present the notes to financial statements
- ▶ That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statements of profit or loss and OCI.

These amendments are effective for annual periods beginning on or after 1 January 2016. These amendments do not have any impact on the Group.

#### *Amendments to IFRS 10, IFRS 12 and IAS 28 Investment Entities: Applying the Consolidation Exception*

The amendments address issues that have arisen in applying the investment entities exception under IFRS 10 *Consolidated Financial Statements*. The amendments to IFRS 10 clarify that the exemption from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity, when the investment entity measures all of its subsidiaries at fair value.

Furthermore, the amendments to IFRS 10 clarify that only a subsidiary of an investment entity that is not an investment entity itself and that provides support services to the investment entity is consolidated. All other subsidiaries of an investment entity are measured at fair value. The amendments to IAS 28 *Investments in Associates and Joint Ventures* allow the investor, when applying the equity method, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries.

These amendments must be applied retrospectively and are effective for annual periods beginning on or after 1 January 2016. These amendments do not have any impact on the Group as the Group does not apply the consolidation exception.

*(Thousands of euros)***4. Significant accounting judgments and estimates****Assumptions and estimation uncertainty**

In the process of applying the Group's accounting policies, management has made its professional judgments, used several assumptions and estimates on determining the amounts of assets and liabilities recognized in the interim condensed consolidated financial statements, which have the most significant effect on the amounts recognized in the consolidated financial statements and the carrying amount of assets and liabilities in the following financial year. Estimates and assumptions are continuously assessed and are based on the management experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Assumptions and estimates adopted by management of the Group in the process of applying the accounting policies are consistent with those described in the consolidated financial statements of the Group for the year ended 31 December 2015.

In particular, information on significant areas of estimation uncertainty and critical judgments in applying accounting policies is presented in the following notes:

- ▶ Note 7 – Financial liabilities at fair value through profit or loss
- ▶ Note 8 – Available-for-sale investment securities
- ▶ Note 10 – Long-term loans to banks
- ▶ Note 11 – Loans to customers
- ▶ Note 17 – Contingencies and lending commitments.

**5. Cash and cash equivalents**

Cash and cash equivalents comprise:

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December</i> <i>2015</i>
<b>Cash on hand</b>	<b>132</b>	<b>66</b>

Term deposits with the Central Bank of the Republic of Cuba without credit rating	34,967	34,967
Less: allowance for impairment	(34,967)	(34,967)
<b>Term deposits with the Central Bank of the Republic of Cuba</b>	<b>–</b>	<b>–</b>

**Concentration of deposits with banks and other financial institutions**

As at 30 June 2016, the Group had three counterparties (31 December 2015: one) accounting for over 20% of the Group's total deposits with banks and other financial institutions, except for deposits with the Central Bank of the Republic of Cuba.

**7. Financial instruments at fair value through profit or loss**

Financial instruments at fair value through profit or loss include derivative transactions. Derivative financial instruments are generally traded in an over-the-counter market with professional market counterparties on standardized contractual terms and conditions. Derivative financial instruments are either assets or liabilities depending on the fluctuations in the market which can have either favorable or unfavorable effect on these instruments. Thus, the fair value of derivative financial instruments may significantly change depending on potentially favorable or unfavorable conditions.

	EUR'000	USD'000	1.09	69	–
<b>Financial instruments at fair value through profit or loss</b>				<b>1,844</b>	<b>29,898</b>

Due to issuing bond loans denominated in currencies other than the functional currency of the Group (Note 15), the Group concluded cross currency interest rate swaps and currency forwards on an arm's length basis with major international and Russian credit institutions. These swaps are used to regulate long-term currency risks of the Group. Payment netting is not applied to the parties' obligations in respect of interest and principal payments.

The notional amount, recorded gross, is the amount of a derivative's underlying asset and liability and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding at the year end and are not indicative of the credit risk.

As at 30 June 2016 and 31 December 2015, the Group has positions in the following types of derivatives:

**Forwards:** Forwards are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. Forwards are customized contracts transacted in the over-the-counter market.

**Swaps:** Swaps are contractual agreements between two parties to exchange movements in interest and foreign currency rates and equity indices, and (in the case of credit default swaps) to make payments with respect to defined credit events based on specified notional amounts.

*(Thousands of euros)***7. Financial instruments at fair value through profit or loss (continued)****Foreign currency transactions (continued)**

Fair value measurement is based on the corresponding forward curves that depend on exchange rates, interest rates and swap contract maturity. For the fair value of swaps, the discount rate was calculated on the basis of zero coupon yield curve and credit risk. Changes in the fair value of swaps were mainly due to changes in the forward EUR to RUB exchange rate.

**8. Available-for-sale investment securities**

Available-for-sale investment securities comprise:

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December</i> <i>2015</i>

<b>Total held-to-maturity investment securities pledged under repurchase agreements</b>	<b>72,496</b>	<b>73,194</b>

*Government bonds of member countries* represent EUR-denominated and RUB-denominated securities issued and guaranteed by the Ministries of Finance of these countries, maturing in 2018-2020 (31 December 2015: maturing in 2018-2020). The annual coupon rate for these bonds varies from 3.6% to 7.9% (31 December 2015: from 3.6% to 7.9%).

*Corporate bonds* are represented by the bonds issued by major companies and banks of member countries and EU countries, maturing in 2017-2023 (31 December 2015: maturing in 2016-2023). The annual coupon rate for these bonds varies from 3.0% to 7.8% (31 December 2015: from 3.0% to 7.9%).

**10. Long-term loans to banks**

The principal lending activity is to facilitate the development of small and medium-sized businesses in the member countries and participate in financing of socially important infrastructure projects in these countries. The Group considers national development institutes, export and import banks and agencies, international financial organizations and development banks as its key counterparties.

The Group provided long-term loans to banks operating in the following countries:

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December</i> <i>2015</i>
Mongolia	50,778	43,044
Russian Federation	39,361	64,223
Socialist Republic of Vietnam	33,044	33,330
<b>Total long-term loans to banks</b>	<b>123,183</b>	<b>140,597</b>

As at 30 June 2016 and 31 December 2015, outstanding long-term loans to banks are neither past due nor impaired, and allowances for impairment of these loans were not made.

*(Thousands of euros)***10. Long-term loans to banks (continued)****Analysis of collateral for long-term loans to banks**

The following table provides an analysis of the portfolio of long-term loans to banks by type of collateral as at 30 June 2016 and 31 December 2015:

	<b>30 June 2016</b> <i>(unaudited)</i>		<b>31 December</b> <b>2015</b>	
	<b>Long-term loans to banks</b>	<b>Share in the total loans, %</b>	<b>Long-term loans to banks</b>	<b>Share in the total loans, %</b>
Pledge of real property (mortgage) and title	8,695	7.1	6,933	4.9
Uncollateralized part of the loans	114,488	92.9	133,664	95.1
<b>Total long-term loans to banks</b>	<b>123,183</b>	<b>100.0</b>	<b>140,597</b>	<b>100.0</b>

The amounts shown in the table above represent the carrying amount of the portfolio of long-term loans to banks, and do not necessarily represent the fair value of the collateral.

**Concentration of long-term loans to banks**

As at 30 June 2016, long-term loans to five banks (31 December 2015: five banks) with the total amount of loans to each of them exceeding 10% of total long-term loans to banks were recorded on the Group 's statement of financial position. As at 30 June 2016, the total amount of such major loans was EUR 82,159 thousand (31 December 2015: EUR 85,238 thousand) and no impairment allowances (31 December 2015: no allowances) has been made for them.

**11. Loans to customers**

The Group issued loans to customers operating in the following countries:

	<b>30 June 2016</b> <i>(unaudited)</i>	<b>31 December</b> <b>2015</b>
Republic of Bulgaria	115,220	57,917
Romania	32,324	25,844
Russian Federation	28,959	28,160
Mongolia	20,947	21,890
Czech Republic	19,911	–
Slovak Republic	8,406	23,437
Other countries	77,096	18,249
<b>Loans to customers</b>	<b>302,863</b>	<b>175,497</b>
Less: allowance for loan impairment	(9,666)	(9,755)
<b>Loans to customers less allowance for impairment</b>	<b>293,197</b>	<b>165,742</b>

The information on the overdue loans as at 30 June 2016 and 31 December 2015 is stated below:

	<b>30 June 2016</b> <i>(unaudited)</i>	<b>31 December</b> <b>2015</b>
Loans with overdue principal and/or interest	14,769	14,858
Less: allowance for loan impairment	(9,666)	(9,755)
<b>Overdue loans to customers</b>	<b>5,103</b>	<b>5,103</b>

As at 30 June 2016 and 31 December 2015, there were no overdue but not impaired loans.

(Thousands of euros)

**11. Loans to customers (continued)****Allowance for impairment of loans to customers**

A reconciliation of the allowance for loan impairment by country is as follows:

	<i>Slovak Republic</i>	<i>Republic of Bulgaria</i>	<i>Total</i>
<b>At 1 January 2016</b>	<b>3,000</b>	<b>6,755</b>	<b>9,755</b>
Net (reversal)/charge for the period	–	(89)	(89)
<b>At 30 June 2016 (unaudited)</b>	<b>3,000</b>	<b>6,666</b>	<b>9,666</b>
<b>Individual impairment</b>	<b>3,000</b>	<b>6,666</b>	<b>9,666</b>
<b>Gross amount of loans, individually determined to be impaired, before deducting any individually assessed impairment allowance</b>	<b>8,103</b>	<b>6,666</b>	<b>14,769</b>
	<i>Slovak Republic</i>	<i>Republic of Bulgaria</i>	<i>Total</i>
<b>At 1 January 2015</b>	<b>3,589</b>	–	<b>3,589</b>
Net (reversal)/charge for the period	(589)	6,755	6,166
<b>At 31 December 2015</b>	<b>3,000</b>	<b>6,755</b>	<b>9,755</b>
<b>Individual impairment</b>	<b>3,000</b>	<b>6,755</b>	<b>9,755</b>
<b>Gross amount of loans, individually determined to be impaired, before deducting any individually assessed impairment allowance</b>	<b>8,103</b>	<b>6,755</b>	<b>14,858</b>

**Analysis of collateral**

The following table provides an analysis of the customer loan portfolio, net of allowance for impairment, by types of collateral as at 30 June 2016 and 31 December 2015:

	<i>30 June 2016 (unaudited)</i>		<i>31 December 2015</i>	
	<i>Loans net of allowance for impairment</i>	<i>Share in the total loans, %</i>	<i>Loans net of allowance for impairment</i>	<i>Share in the total loans, %</i>
State guarantees	71,241	24.3	18,249	11.0
Pledge of real property (mortgage) and title	33,252	11.3	35,896	21.6
Corporate guarantees	19,911	6.8	–	–
Pledge of right of claim	19,343	6.6	18,492	11.2
Pledge of shares	14,917	5.1	29,952	18.1
Pledge of equipment and goods in turnover	12,865	4.4	13,281	8.0
Pledge of vehicles	3,308	1.1	–	–
Uncollateralized part of the loans	118,360	40.4	49,872	30.1
<b>Total loans to customers</b>	<b>293,197</b>	<b>100.0</b>	<b>165,742</b>	<b>100.0</b>

The amounts shown in the table above represent the carrying amount of the customer loan portfolio, and do not necessarily represent the fair value of the collateral.

During 2016, the Group financed the borrower in the amount EUR 50,251 thousand under syndicated bridge lending for the period of bond emission of the borrower. This loan was showed as uncollateralized in the table above.

**Concentration of loans to customers**

As at 30 June 2016, loans to three borrowers (31 December 2015: two borrowers) with the total amount of loans to each of the three borrowers exceeding 10% of total loans to customers were recorded on the Group's statement of financial position. As at 30 June 2016, these loans comprised EUR 121,511 thousand (31 December 2015: EUR 40,991 thousand) in total and no impairment allowances (31 December 2015: no allowances) has been made for them.

*(Thousands of euros)***11. Loans to customers (continued)****Analysis of loans to customers by industry**

The Group issued loans to borrowers operating in the following industries:

	<b>30 June 2016</b> <b>(unaudited)</b>	<b>31 December</b> <b>2015</b>
Production and transmission of electrical energy	86,231	14,688

<b>Total non-financial liabilities</b>	<b>3,661</b>	<b>3,025</b>
<b>Total other liabilities</b>	<b>4,124</b>	<b>4,088</b>

**13. Due to banks and other financial institutions**

Due to banks and other financial institutions comprise:

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December</i> <i>2015</i>
<b>Due to banks up to 1 year</b>		
Term deposits from banks and other financial institutions	106,681	48,617
<b>Total due to banks up to 1 year</b>	<b>106,681</b>	<b>48,617</b>
<b>Due to banks over 1 year</b>		
Repurchase agreements	64,177	64,756
<b>Total due to banks over 1 year</b>	<b>64,177</b>	<b>64,756</b>
<b>Total due to banks</b>	<b>170,858</b>	<b>113,373</b>

The Group performs daily monitoring of the repurchase agreements and the value of collateral when placing/returning additional collateral, if necessary.

**Concentration of deposits from banks and other financial institutions**

As at 30 June 2016, the Group has three counterparties (31 December 2015: two counterparties) accounting for over 20% of the Group's total deposits from banks and other financial institutions in the amount of EUR 155,168 thousand (31 December 2015: EUR 87,788 thousand).

**14. Long-term loans from banks**

Long-term loans from banks comprise:

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December</i> <i>2015</i>
Syndicated loans	58,670	–
Loans from banks	13,497	44,187
<b>Total long-term loans from banks</b>	<b>72,167</b>	<b>44,187</b>

In June 2016, the Group received syndicated loan in the amount of EUR 60,000 thousand with a floating rate of EURIBOR (6 months) + 1.75% p.a., and maturing in May 2018.

(Thousands of euros)

## 15. Debt securities issued

Debt securities issued comprise:

	<i>Interest rate, % p.a.</i>	<i>Maturity</i>	<i>30 June 2016 (unaudited)</i>	<i>31 December 2015</i>
RUB-denominated bonds	11.7-13.25	2024-2025	178,523	158,067
EUR-denominated bonds	3.5	2019	30,634	30,100
RON-denominated bonds	4.1	2018	25,088	24,557
<b>Total bonds</b>			<b>234,245</b>	<b>212,724</b>

At the dates of placement of RUB-denominated bonds, the Group entered into cross-currency interest rate swaps and a currency forward for the purpose of regulating currency risks (Note 7).

## 16. Equity

### Subscribed and paid-in capital

The Bank's subscribed capital amounts to EUR 1,300,000 thousand which represents the Bank's equity stated in the Agreement on the Establishment of the International Investment Bank. The Bank's member countries make contributions to the Bank's equity pursuant to their shares stipulated in the Agreement.

As at 30 June 2016, unpaid portion of the Bank's subscribed capital in the amount of EUR 986,947 thousand (31 December 2015: EUR 996,947 thousand) is the amount of contributions by the Bank's member countries which have not been made yet and the amount of unallocated equity contributions totaling EUR 175,500 thousand (31 December 2015: EUR 175,500 thousand).

On 9 March 2016, in accordance with the Memorandum of Understanding signed at the 102nd meeting of the IIB's Council (20-21 November 2014), the Government of Hungary contributed EUR 10,000 thousand to the Bank's equity.

On 18 May 2015, the Government of Hungary contributed EUR 10,000 thousand to the Bank's equity to resume its full membership. On 28 December 2015, the Government of Mongolia contributed EUR 434.8 thousand to the Bank's equity.

As a result, the paid-in capital of the International Investment Bank totaled EUR 313,053 thousand (31 December 2015: EUR 303,053 thousand).

### Revaluation reserve for available-for-sale investment securities and revaluation reserve for property and equipment

The movements in the revaluation reserve for available-for-sale investment securities and revaluation reserve for property and equipment were as follows:

	<i>Revaluation reserve for available-for- sale investment securities</i>	<i>Revaluation reserve for property and equipment</i>
<b>At 1 January 2015</b>	<b>(999)</b>	<b>35,095</b>
Net unrealized gains on available-for-sale investment securities	489	–

Realized gains on available-for-sale investment securities reclassified to the income statement	(3,186)	–
<b>At 30 June 2016 (unaudited)</b>	<b>551</b>	<b>31,453</b>

*(Thousands of euros)***17. Contingencies and loan commitments****Legal**

In the ordinary course of business, the Group is subject to legal actions and complaints. Management believes that the ultimate liability, if any, arising from such actions or complaints will not have a material adverse effect on the financial position or the results of future operations of the Group. In accordance with the Agreement on the establishment of the Bank, its assets (irrespective of their location) enjoy immunities from any administrative and legal claims.

The Group takes all necessary legal and other actions to collect the bad debt and to realize respective repossession rights. When the estimated amount of costs resulting from the Group's further actions to collect bad debt and/or realize respective repossession rights is higher than the amount collected and also when the Group holds necessary and sufficient documents and/or regulations issued by the governmental authorities, it decides to write off such bad debt against the respective provision.

**Insurance**

The Group obtained insurance coverage for a group of buildings, equipment and car park as well as liability insurance against damages caused by operating assets of a hazardous nature. However, the Group did not obtain insurance coverage related to temporarily discontinued operations or the Group's obligations to third parties.

**Commitments and contingencies**

At any time the Group has outstanding commitments to extend loans. These commitments take the form of approved loan agreements.

As at 30 June 2016, commitments and contingencies of the Group comprised off-balance credit-related commitments, in particular undrawn loan facilities and reimbursement obligations.

Off-balance credit-related commitments are presented in the table below as at 30 June 2016 and 31 December 2015.

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December</i> <i>2015</i>
Undrawn loan facilities	42,449	52,376
Reimbursement obligations	11,844	6,796
Guarantees issued	–	4,556
<b>Total off-balance commitments</b>	<b>54,293</b>	<b>63,728</b>

**18. Interest income and interest expense**

Net interest income comprises:

	<i>For the six months ended 30 June</i> <i>(unaudited)</i>	
	<i>2016</i>	<i>2015</i>
Loans to customers	6,279	3,547
Long-term loans to banks	3,398	3,275

Professional services	194	224
Other	236	372
<b>General and administrative expenses</b>	<b>8,174</b>	<b>8,375</b>

**20. Risk management****Risk management framework**

The Group's risk management policy is based on the conservative approach and is mainly aimed at mitigation of adverse impact of risks on the Group's results, i.e. on the safety and reliability of fund allocation while maintaining the reasonable level of profitability. The conservative approach assumes that the Group does not enter into potential transactions with high or undeterminable risk level, regardless of profitability.

The Group's risk management activities are intended to:

- ▶ Identify, analyze and manage risks faced by the Group
- ▶ Establish ratios and limits that restrict level of the appropriate types of risks
- ▶ Monitor the level of the risk and its compliance with established limits
- ▶ Develop and implement regulative and methodological documents as well as software applications that ensure the professional risk management for the bank transactions.

Risk management policies and procedures are reviewed regularly to reflect changing situation on the financial markets.

Integrated into the whole vertical organizational structure of the Group and all areas of the Group's activities, the risk management system makes it possible to identify in a timely manner and effectively manage different types of risks.

Risk management involves all of the Group's divisions in evaluating, assuming, and controlling risks ("Three lines of defense"):

- ▶ Risk-taking (1st line of defense): the Bank's divisions directly preparing and conducting transactions, involved in the identification, assessment, and monitoring of risks and comply with internal regulations on risk management, as well as give due consideration to the risk level in the preparation of transactions
- ▶ Risk management (2nd line of defense): the division responsible for risk management develops risk management tools and methodology, assesses and monitors the risk level, prepares reports on risks, carries out risk aggregation, and calculates the amount of total capital requirements
- ▶ Internal audit (3rd line of defense): independent quality assessment for existing risk management processes, identification of violations, and proposals for the improvement of the risk management system

The Group's operations are managed taking into account the level of the risk appetite, approved by the Council of the Group and integrated into a system of limits and restrictions insuring the acceptable level of risk for aggregated positions, transparent distribution of total risk limit between the activities of the Group.

*(Thousands of euros)***20. Risk management (continued)****Risk management framework (continued)**

The Group identifies the following major risks inherent in its various activities:

- ▶ Credit risk
- ▶ Liquidity risk
- ▶ Market risk
- ▶ Operational risk

**Credit risk**

Credit risk is the risk that the Group will incur a loss because its counterparty fails to discharge its contractual financial obligations to the Group, or discharged them in an untimely fashion or not in full. Credit risk arises principally from loans and advances to customers and other banks and other on and off balance sheet credit exposures. For risk reporting purposes, the Group considers and consolidates all elements of potential credit risk exposures such as individual borrower or counterparty default risk.

The assessment of credit quality of assets is based on the qualitative and quantitative assessment of credit risk.

Deposit contracts with banks and other financial institutions are concluded with counterparties with acceptable credit ratings assigned by such internationally recognized rating agencies as Standard & Poor's, Fitch and Moody's.

Assessment of credit quality of loans is based on a 5 grade system of risk factor categories: standard, sub-standard, doubtful, impaired and uncollectible. The risk factor category is assigned on the basis of the assessment of the customer's financial position, payment discipline, credit history, compliance with business plan and production discipline, additional characteristics such as management quality, compliance with other terms and conditions of the loan agreement, strength of positions in the market, competitive potential, administrative resources, industry specifics and country rating.

As at 30 June 2016 and 31 December 2015, there was no evidence of impairment of long-term loans to banks and all such loans were classified as standard. The following table provides information on the credit quality of long-term loans to banks (Note 10) and loans to customers (Note 11) as at 30 June 2016 and 31 December 2015:

<b>Total loans</b>	<b>316,094</b>	<b>(9,755)</b>	<b>306,339</b>	<b>3.1</b>

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions.

Once the terms have been renegotiated, the loan is no longer considered past due. Renegotiated structured loans are continuously reviewed to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual impairment assessment, calculated using the loan's original effective interest rate.

**Liquidity risk**

Liquidity risk is the risk of loss resulting from the Group's inability to meet its payment obligations in full when they fall due under normal and stress circumstances. Liquidity risk results from improper balance between the Group's financial assets and financial liabilities by period and amount (including due to untimely discharge of its financial obligations by one or several counterparties of the Group) and/or an unforeseen need of immediate and simultaneous discharge of its financial obligations.

Liquidity management is an integral part of general policy for the Group's assets and liabilities management (ALM) and operates within the established limits and restrictions related to management of risks (liquidity, interest rate and currency risk) and the Group's balance sheet items, and in accordance with the documents of strategic, tactical and operating planning.

Procedures for the Group's liquidity position management, ensuring the Group's ability to meet its obligations in full and on a timely basis and efficient resources management, are stipulated in the Procedures for the IIB's Liquidity Position Management that enables the development of the liquidity position management function provided for by the IIB's Assets and Liabilities Management Policy, as an integral part of general function of the Group's management.

The Group manages its liquidity position in accordance with planning horizons (up to 6 months) and possible scenarios of movements in liquidity position (stable, stressed).

*(Thousands of euros)***20. Risk management (continued)****Liquidity risk (continued)**

The Group has implemented a liquidity buffer to manage the Group's liquidity under the stressed scenario. Application of the liquidity buffer enables the Group to promptly monitor the sustainability and stability of the Group's balance sheet structure in case of liquidity shortage that is critical to the Group's solvency.

The liquidity buffer is formed primarily by liquidity reverses, namely securities recognized on the Group's balance sheet and included in the Lombard lists of the European Central Bank and Bank of Russia. The Group calculates its liquidity reserves as at the reporting date and for the next six monthly reporting dates (forecast). Liquidity buffer may be used to close the negative net position. As at 30 June 2016, the liquidity buffer amounts to EUR 110.4 million (31 December 2015: EUR 65.1 million).

The table below shows the contractual expiry by maturity of the Group's off-balance credit-related commitments. Each undrawn loan commitment is included in the time band containing the earliest date it can be drawn down.

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December 2015</i>
Less than 1 month	23,849	52,376

*(Thousands of euros)***20. Risk management (continued)****Market risk**

Market risk is the risk that the Group may incur losses due to adverse fluctuations in market rate of financial instruments, interest rates, foreign exchanges, and securities' prices. Market risk includes equity risk on securities, interest rate risk and currency risk.

The Group is exposed to market risk due to open positions in currency. Equity risk on securities arises from open positions in debt and equity instruments, which are exposed to general and specific market changes.

**Currency risk**

Currency risk is the risk of loss resulting from adverse changes in exchange rates with respect to the Group's open positions in foreign currencies.

The Group applies a VaR methodology to assess currency risks. VaR is a method used in measuring maximum risk of the Group, i.e. the level of losses on a certain position in relation to a financial instrument/currency/precious metals or a portfolio, which shall not be exceeded at a given confidence level and over a specified time horizon.

The Group assumes that the accuracy of assessment of maximum value at risk (confidence level) is 99%, and the time horizon is 10 days.

At estimating value at risk, the Group uses a parameter method, which allows assessing the volatility of yield on the basis of the most current market data.

The choice of a respective approach to value at risk estimation is made on the basis of data on statistical analysis of changes in fair values of financial instruments and exchange rates.

Selection period used by the Group for modeling purposes depends on types of instruments: 250 days for currency and securities. In order to monitor the accuracy of assessment of above mentioned risks, the Group carries out regular testing (back-testing) based on historical data, which allows evaluating the compliance of risk assessment model with the actual market situation.

As at 30 June 2016, final data on value at risk assessment in relation to currency risks assumed by the Group are represented as follows:

	<i>30 June 2016</i> <i>(unaudited)</i>	<i>31 December 2015</i>
Fixed income securities price risk	1,303	1,536
Currency risk	243	126

Despite measurement of value at risk is a standard industry method for risk assessment, this method has a number of limitations:

- ▶ Analysis based on value at risk assessment is correct in case current market conditions remain unchanged
- ▶ Assessment of value at risk is sensitive to market liquidity in relation to a particular financial instrument, and the lack of liquidity may lead to biased volatility data
- ▶ If a confidence level of 99% is used, losses exceeding the confidence range are not taken into account
- ▶ 10-day time horizon implies the entire Group's position over this period could have been closed or hedged. Results of value at risk assessment may be incorrect in case of market liquidity deterioration.

Fluctuations that may occur in the course of the day are not taken into account at calculating value at risk on the basis of the results of a business day.

*(Thousands of euros)***20. Risk management (continued)****Market risk (continued)**

The Group has assets and liabilities denominated in several foreign currencies. The Group is exposed to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. Non-monetary financial instruments and financial instruments denominated in functional currency are not exposed to currency risk.

The Group's exposure to currency risk as at 30 June 2016 and 31 December 2015 is presented below:

<i>Monetary items</i>	<i>30 June 2016 (unaudited)</i>					<i>31 December 2015</i>

*(Thousands of euros)***21. Fair values of financial instruments**

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price.

The estimated fair values of financial instruments have been determined by the Group using available market information, where it exists, and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to determine the estimated fair value. While management has used available market information in estimating the fair value of financial instruments, the market information may not be fully reflective of the value that could be realized in the current circumstances.

**Fair value hierarchy**

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- ▶ Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities
- ▶ Level 2: techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly
- ▶ Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of their nature, characteristics and risks of the asset or liability, and the level of the fair value hierarchy.

*(Thousands of euros)***22. Segment information**

For management purposes, the Group identifies the following three operating segments based on its lines of services:

Credit investment activity	Investment banking services, including long-term corporate and interbank financing
Treasury	Operations in financial markets, transactions with securities, derivative financial instruments and foreign currency, and liquidity management
Other operations	Operational leasing services, other operations

Management monitors the operating results of its business units consolidated for the purpose of making decisions about resource allocation and performance assessment. Segment performance, as explained in the table below, is measured differently from profit or loss in the interim condensed consolidated financial statements. The following table presents income, profit, assets and liabilities of the Group's operating segments:

<i>30 June 2016 (unaudited)</i>	<i>Credit investment activity</i>	<i>Treasury</i>	<i>Other operations</i>	<i>Total</i>

**24. Related party disclosures**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions as defined by IAS 24 *Related Party Disclosures*. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Transactions and settlements with related parties were carried out on conditions similar to those which prevail in transactions between independent parties.

*(Thousands of euros)***24. Related party disclosures (continued)**

The volumes of related party transactions, outstanding balances as at 30 June 2016 and 31 December 2015, and related expense and income for the six months ended 30 June 2016 and 30 June 2015 are as follows:

	<i>Related party</i>	<i>30 June 2016 (unaudited)</i>		<i>31 December 2015</i>

**25. Capital adequacy**

Capital adequacy ratio is the most important financial indicator characterizing credibility of credit institutions and is estimated as ratio of capital base to risk-weighted assets expressed as a percentage. Approval of the capital adequacy ratio is the sole power of the Bank's Council.

The Basel Committee on Banking Supervision recommends maintaining the ratio of capital to risk-weighted assets ("capital adequacy ratio") above the prescribed minimum level. As at 30 June 2016, this minimum level was 8% (2015: 8%).

Besides, taking into account the Group's status as the multilateral development institution as well as the structure of the Bank's member countries, the Bank's Council set the capital adequacy ratio for the Bank at the level of not less than 25% as at 30 June 2016 (2015: 25%).
