April 15, 2008

PRESS RELEASE

Bucharest Stock Exchange informs that starting with April 16, 2008 the price correction factor $\mathbf{c_{i,T}}$ for **Bermas** (symbol: **BRM**) which will be considered in calculating the BET-C index is **1.120226**.

The value of $\mathbf{c_{i,T}}$ for **BRM** was determined accordingly to the 4.2.2 article of BVB index management rules:

*"**4.2.2 Bonus shares offer -** In case an index member decides upon a bonus shares offer, the price correction factor $c_{i,T}$ is determined as follows:*

$$\mathrm{c}_{\mathrm{i,T}} = 1 + \frac{q_{i,bonus}}{q_{i,T-1}}$$

$q_{i,bonus}$ *: Number of bonus shares of i-th stock;*

$q_{i,T-1}$ *: Initial number of shares of i-th stock at time T-1."*

For more information about BVB indices, please feel free to contact us at e-mail address: **indices@bvb.ro**
