Annex – Change in the valuation methods used for the computation of NAV of Fondul Proprietatea as at 30 June 2011

For the computation of NAV as at 30 June 2011 for Fondul Proprietatea S.A., Franklin Templeton Investment Management decided to change the valuation methods used for the investment in the companies listed below:

1) Comcereal Fundulea SA, Prestari Servicii SA, Severnav SA și Vitacom SA

For these companies, the valuation method has been changed from Shareholders' equity / share to Closing Price according to the Disposal of measures 17/25.11.2010, because the shares of these companies have been traded during the last 30 days.

2) Palace SA

For this company, the valuation method has been changed from Closing Price to Shareholders' equity / share according to the Disposal of measures 17/25.11.2010, because the shares of this company have not been traded during the last 30 days.

3) Romplumb SA

For this company, the method used for the computation of NAV of Fondul Proprietatea in the previous month was Shareholders' equity / share (shareholders' equity as reflected in the audited statutory financial statements as of 31 December 2010).

Due to the fact that the continuity of the company activity depends on the financing received from the Government and the probability that the Government will continue the financing is low, Franklin Templeton Investment Management decided to change the valuation method, valuing, for prudence reasons, this investment at zero for the computation of NAV.
