Important event: COMMUNIQUE

SIF Moldova informs the investors on the capital market about the introduction of the global accounts system and the mechanism without pre-validation of financial instruments for SIF Moldova shares (SIF2) and for all financial instruments admitted to trading on the regulated market managed by Bucharest Stock Exchange. The application of these technical trading conditions will be open starting with February 1st 2012, according to CNVM regulations.

We estimate that implementation of these mechanisms, as a result of the cooperation between SIF Moldova, Bucharest Stock Exchange and brokers, meets the expectations of the shareholders and will have positive effects on the Romanian capital market.
