

Notification

Raiffeisen Centrobank AG as the issuer of the
Short Tracker on Brent Crude Oil (AT0000A07SD6)

wants to inform all market participants that – for the time being – it cannot provide full quotation for this product. This is due to the fact that there are no PRIIP KIDs available for this product and Raiffeisen Centrobank AG is, therefore, not in the position to issue this product at the moment. In order to act in the best interest of the existing investors, Raiffeisen Centrobank AG will continue to provide quotation on a bid-only basis. Thus all existing investors have still the possibility to sell this product on the Bucharest Stock Exchange. As soon as the relevant PRIIP KIDs are available – which should be by 15 August 2018 at the latest – Raiffeisen Centrobank AG will start to provide bid and ask quotes again.
