The Current Reports have been prepared by the management of the Company to report to ASF in accordance with the provisions of art. 82 from Law no 24/2017 and Regulation no. 5/2018.

Management's responsibility

Management is responsible for the preparation and fair presentation of the Current Reports and of the transactions included in them that are free of material misstatement, in accordance with art. 82 from Law no 24/2017 and Regulation no. 5/2018, and for the information presented in these reports. Management is responsible for preventing and detecting fraud and ensuring compliance with the legislation and regulations in force.

Auditor's responsibility

Our responsibility is to analyze the reported transactions included by the Company in the Current Reports and to report in the form of an independent conclusion of limited assurance, based on the evidence obtained. We conducted the engagement in accordance with International Standard on Assurance Engagements („ISAE”) 3000 as adopted by the Romanian Financial Auditors Chamber regarding the assurance engagement other than Audits or Reviews of Historical Financial Information. This standard require that we comply with ethical requirements, including independence requirements, and plan and perform our procedures in order to obtain a corresponding assurance level of whether the transactions included in the Current Reports, are in accordance, under all material aspects, with art. 144 B) of Regulation no. 5/2018, as a basis for our independent conclusion of limited assurance.

We respect the independence requirements and other ethical requirements of IESBA's Accounting Ethics Code of Ethics, which sets out the fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional conduct.

The selected procedures depend on our understanding of the Current Reports and of other circumstances of the engagement, as well as our considerations on areas where material misstatements may occur. In developing our understanding on the Current Reports and on the transactions reported in the Current Reports we took into consideration the Company's internal control relevant to the preparation and presentation of the Current Reports in accordance with the provisions of art. 82 of Law no. 24/2017 and Regulation no. 5/2018 in order to establish the procedures that are appropriate in these circumstances, but not for the purpose of expressing a conclusion on the effectiveness of internal control for the preparation and fair presentation of the Company's Current Reports and the transactions reported in the Current Reports

Limited assurance is narrower than absolute or reasonable assurance. The procedures for obtaining evidence for a limited assurance engagement are more restricted than in a reasonable assurance engagement, and therefore the level of assurance obtained is lower than in a reasonable assurance engagement.

As part of this engagement, we have not performed audit review or verification procedures of the Current Reports and on the transactions reported in the Current Reports in accordance with the International Standards on Auditing or International Standards on Review Engagements adopted by the Chamber of Financial Auditors of Romania, nor on the sources from which the Current Reports and the transactions reported in the Current Reports were extracted. Our procedures were only performed in connection with the Current Reports. We have not performed other additional procedures to verify whether the Current Reports include all contracts with managers, employees, shareholders, as well as their affiliated entities, to be reported according to art. 82 of Law no. 24/2017.

Criteria

Regarding the Current Reports, we performed the following procedures:

- We obtained from the Company the current accompanying reports and compared the details that are required to be included in these reports under Law 24/2017 (Article 82) with the information that was included in these reports by the Company.
- For a selection of Reports that we have reviewed, as defined in this report, we determined whether their details correspond to all significant aspects of the information contained in the contracts made available to us.
- To the extent that there is a market price for the goods or services provided to the Company's directors, its significant staff and shareholders and the persons involved with them, we have discussed with the management of the Company how the prices of the contracts were set and if, on a case-by-case basis, the agreed prices correspond to those used by other parties (third parties), services or similar goods. If there are no available market prices, we have analyzed whether those transactions are made based on approved and signed contracts.
- For contracts involving the application of regulated tariffs, we compared the tariffs applied with those in force at the date of conclusion of the respective contracts.

The errors found in the above-mentioned reports were corrected based on the Errata published on 30.07.2019.
