2. General overview of CSR directions

In the area of Corporate Social Responsibility, BVB supports projects in 1/education, especially focused on financial literacy, and 2/environment protection.

Education

In the Romanian society, the education level in economic-financial area, especially capital markets, it is at very low level. To raise the level of education of young generation in this field becomes an obligation of the whole society, not only of the persons or institutions directly responsible for education.

BVB wants to be dynamically involved in the economic and social life of Romania, and cannot remain indifferent to this national problem. BVB develops its own competences through which it can contribute to the developments in this field.

We need to create the future generation of educated investors through specific economic-financial education.
