I.Synthesis of economic and financial indicators on 30.06.2026

The information about the economic and financial situation of Practic S.A. are presented in summary in the report prepared in accordance with Law no. 24/2017 and Regulation no. 5/2018 regarding the capital market. According to the MFP information release dated 29.06.2026, for the year 2026, economic entities are not required to prepare semi-annual accounting reports.

The reporting currency is the leu.

1.1 The structure and evolution of assets, liabilities and equity compared to the similar period of the previous financial year is presented as follows:

Real estate investments have a significant weight in the company's total assets, representing the material basis necessary to carry out its basic activity, namely the rental of commercial spaces and office buildings.

1.2 The profit and loss account is presented in the following structure:

The turnover increased during the analyzed period, as a result of a slight increase in the degree of occupancy of street commercial spaces, the diversification of the tenant mix, the identification of viable rental solutions for office premises and buildings located in non-offering, poor or without commercial ford.

The gross profit on 30.06.2026 amounting 19.787.531 lei, growing by 1,28% as compared to the similar period of the year 2025, when it recorded a value of 19.536.601 lei.
