**Follow up on the announcement dated March 19, 2012 with regards to the alleged breach of antitrust regulations on the Bulgarian fuels market/  
Revenire comunicat din 19 martie 2012 privind pretinsa incalcare a reglementarilor privind concurenta pe piata de carburanti din Bulgaria**

Petrom hereby informs that its subsidiary OMV Bulgaria OOD received the decision of the Bulgarian Commission for Protection of Competition (CPC) approving the commitments proposed by OMV Bulgaria OOD.

According to the decision, CPC terminates the proceedings with regards to the alleged breach of antitrust regulations because no further grounds exist for their continuation and provides a term of 30 days from the notification of this decision to the parties, for performance of the above commitments for which the CPC should be duly informed.

The commitments concern only the wholesale trade segment, referring to adjusting the clauses in the contracts in line with the latest requirements of the competition law and setting up a mechanism of informing the customers with regards to prices aimed at avoiding an excessive transparency between competing companies.

Petrom informeaza ca afiliata sa, OMV Bulgaria OOD a primit decizia Comisiei pentru Protectia Concurentei din Bulgaria (CPC), prin care s-au aprobat angajamentele propuse de OMV Bulgaria OOD.

Conform deciziei, CPC finalizeaza investigatia in legatura cu pretinsa incalcare a reglementarilor privind concurenta, dat fiind ca nu mai exista temeii pentru continuarea acesteia, prevazand un termen de 30 de zile de la data notificarii deciziei catre partile implicate, pentru ducerea la indeplinire a angajamentelor despre care CPC trebuie sa fie infomata corespunzator.

Angajamentele privesc exclusiv segmentul comertului cu ridicata, referindu-se la ajustarea clauzelor din contracte in linia celor mai recente cerinte din legislatia de concurenta si definirea unui mecanism de comunicare a pretului catre clientii din acest segment menit sa evite crearea unei transparente excesive intre companiile concurente.
