Regulated market on which the issued securities are traded: Bucharest Stock Exchange, Main Segment, Category Int'l (Shares)

Important events to be reported: Decision regarding the participation to the auction procedure related to wireless broadband services supporting the introduction of 5G in Hungary

The Company would like to inform its investors and the market on the decision of rejection issued on September 13 by the Hungarian Media and Informations Authority (“NMHH”), in respect to the

participation of the Company in the tender related to wireless broadband services supporting the introduction of 5G in Hungary. The Company took part in this procedure in order to develop the mobile communications activity on the Hungarian market.

The Company considers NMHH's decision unfair and without legal grounds. In our view, NMHH decision exceeds the provisions of the tender documentation and is based on assumptions and future projections instead of facts and documented analyses. This decision continues a list of other unfavorable and controversial resolutions taken by NMHH in the past, related to Digi Group companies during previous radiofrequencies tenders.

The Company will challenge this decision, by all means, according to the Hungarian and European law. The Group is determined to continue the execution of its projects on Hungarian market in the best interest of its customers.

Serghei Bulgac
