

The BVB's technical specifications regarding the application starting from April 1st, 2024 of the updates related to tick sizes corresponding to the shares tradeable within BVB

Based on the annual data published by ESMA that imply the updates of the liquidity bands (tick size lists) for some shares, that will become effective starting with April 1st, 2024, for a compliant implementation, the following will be applied:

- On April 1st, 2024, the Pre-open stage will start at 09:30 for the markets REGS, XRS1 and XRSI (main markets for the shares tradeable within BVB)
- All existing orders at the end of the trading session of March 29, 2024 on the following shares will be deleted, considering that another liquidity band (tick size list) will be applied starting with April 01st, 2024, as follows:

Symbol	ISIN	Updated tick size list (liquidity bands), applicable starting with April 1, 2024	Symbol's main market
