BRD GROUP RESULTS FOR 9M 2026:

SUSTAINED COMMERCIAL GROWTH

Press release

Bucharest, October 29th, 2026

Main commercial trends and financial indicators of BRD Groupe Societe Generale at September 30th, 2026 at consolidated level, according to the International Financial Reporting Standards (IFRS):

- **Continued business resilience against a backdrop of prolonged economic uncertainty**
  - net loans outstanding (including leasing financing), +12.4% YoY as of September 2026 end, driven by both corporate and retail segments (+17.8% YoY and +8.6% YoY, respectively)
  - deposit base, +2.0% YoY, with retail up by +7.8% YoY, providing a solid funding source
  - BRD Asset Management continues to hold a top position within Romania's UCITS market, with assets under management (AUM) of RON 11.0 billion and 23.5% market share, as at September 2026 end
  - growing client adoption of digital channels, with YOU BRD payment transactions reaching 32 million (+22% YoY) and higher value of RON 54bn (+18% YoY) in 9M 2026
- **Supporting corporate investment and sustainable finance initiatives**
  - sustainable finance production of EUR 2.8 billion as of September 2026 end, cumulated since 2021, already ahead of the 2027 target of EUR 2.4 billion
  - active involvement in renewable energy and circular economy financing projects
- **Resilient financial performance supported by disciplined execution:** gross operating income of RON 1,702 million in 9M 2026 (+5.5% YoY)
- **Sustained focus on cost efficiency:** C/I at 49.1% in 9M 2026 (-132 bps YoY) and 42.8% excluding tax on turnover
- **Solid credit quality indicators:** NPL ratio of 2.7%; comfortable NPL coverage: 67.4% as of September 2026 end
- **Net profit of RON 1,176 million;** adjusted **ROE of 17%** in 9M 2026, excluding tax on turnover

"Against a backdrop of fiscal tightening and an increasingly challenging operating environment, BRD Group delivered resilient performance during the first nine months of 2026. Commercial momentum remained solid, with loan growth of 12% year-on-year, supported by healthy activity across both retail and corporate segments, reflecting the strength of our franchise and customer relationships. BRD continued its strong commitment to sustainable finance, with cumulative sustainable financing already exceeding 2027 ambition.

We further enrich our digital ecosystem, enhancing YOU BRD mobile application with new functionalities designed to improve customer experience and increase engagement. Digital transaction activity maintained its growth momentum, reinforcing the key role of digital channels in our relationship with customers.

Supported by business growth and customer activity, revenues continued to advance, while disciplined cost management and prudent risk oversight further backed our performance. Despite a more demanding macroeconomic backdrop, BRD Group delivered a high ROE of 17%, excluding turnover tax, demonstrating the resilience of our business model and the commitment of our teams to creating long-term value for customers and shareholders alike.", said ***Maria ROUSSEVA, CEO of BRD Groupe Société Générale.***

Solid lending growth across corporate and retail client segments

Net loans outstanding, including leasing financing, reached RON 60.1 billion at September 2026 end, up by +12.4% YoY. Growth remained diversified across client segments, with corporate lending increasing by +17.8% YoY thanks to the dynamic activity on the large corporate clients. Retail loans (+8.6% YoY) benefitted from strong housing demand, while consumer lending showed a weaker dynamic, being more sensitive to inflationary environment.

Reflecting its strong commitment to supporting sustainable investments, the value of BRD's sustainable financing transactions, cumulated since 2021, reached EUR 2.8 billion at September 2026, of which EUR 512 million in 9M 2026, exceeding the 2027 ambition of EUR 2.4 billion.

In Q3, BRD participated, alongside an international consortium of lenders, in structuring a financing package of EUR 561 million for the Dama Solar photovoltaic project in Arad County, developed by Rezolv Energy, which was labeled as green financing. Once completed, the project will become the largest onshore renewable energy project in the European Union.

BRD also provided Construcții Erbașu S.A. with a green loan of RON 60.7 million to co-finance a strategic circular economy project: the development of the newest recycling facility for construction and demolition waste in Ilfov county. The loan has a 10-year tenor and is aligned with the Loan Market Association (LMA) Green Loan Principles.

Moreover, BRD participated in the EUR 284 million financing of the Gurbănești wind farm developed by Greenvolt Power. With an installed capacity of 253 MW and 42 state-of-the-art wind turbines, the project will make a significant contribution to increasing renewable energy generation and supporting the decarbonization of Romania's power system.

BRD successfully supported Autonom Services' EUR 30 million sustainability-linked bond issuance. The transaction marked Autonom's fourth bond issuance and its third sustainability-linked issuance. BRD acted as Co-Arranger and Bookrunner, Sole Sustainability-Linked Bond Structuring Agent, and Listing Agent.

In August 2026, BRD Sogelease secured a EUR 100 million loan from the EIB to expand financing for Romanian SMEs and mid-caps, supporting investments aimed at business growth, productivity and sustainable development, with 15% of the facility earmarked for green projects. The agreement further reinforces BRD Group's position as a key financing partner for SMEs and mid-cap companies in Romania.

Beyond these sustainable financing transactions, BRD continued its involvement as a founding partner in the Climate Change Summit fifth edition. Held in October under the theme "Infrastructures of our Future", the 2026 edition convened over 2,100 participants, more than 70 speakers and leading international institutions, highlighting the role of sustainable infrastructure investment and financial institutions in supporting climate resilience and long-term economic competitiveness.

BRD also introduced its first loan with embedded derivative solution, combining financing and interest rate risk protection within a single product for corporate clients. The innovative offering provides greater predictability of financing costs, simplifies administration and accounting processes, and enables companies to fix or cap borrowing costs in a volatile interest rate environment, reinforcing BRD's advisory and risk-management capabilities.

Growing customer assets managed across banking and investment products

Total deposit base reached RON 73.5 billion, up by +2.0% YoY, with higher inflows from private individuals. Retail deposits, a core well-diversified funding source, rose by +7.8% YoY due to higher collections from private individuals' customers. Corporate deposits decreased by -6.8% YoY reflecting adjustment of remuneration rate to liquidity and market conditions, fluctuating liquidity needs among large corporates, alongside increased competition for customers resources.

Asset management activity maintained robust during the first nine months of 2026. BRD Asset Management, which manages 12 investment funds for over 220,000 clients (+27 thousand YoY) holds a top position within Romanian UCITS market, with a 23.5% market share at September 2026 end, and total assets under management reaching RON 11.0 billion at September 2026 end, from RON 8.1 billion at September 2025 end.

Strong digital engagement alongside YOU BRD's "Voted Product of the Year® 2026 for Innovation" recognition

In 9M 2026, BRD leveraged its solid YOU BRD customer base (1.9m users at Sep-26 end) to further increase digital engagement, with e-banking adoption continuing to support higher transaction activity. As a result, 34 million payments

have been executed via YouBRD (+22% YoY vs. 9M 2025), amounting to c. RON 54 billion in value (+18% YoY vs. 9M 2025). In addition, ~70% of YOU BRD users were enrolled in the cashback loyalty program with a cumulative RON 5.3 million cashback granted since its launch in June 2024. Digital channels continued to gain traction across key customer interactions, including payments, lending and deposits – online unsecured consumer loan production reached 56%, whereas savings and deposits opened in YOU BRD, accounted for 55% of total deposits opened on all channels in 9M 2026.

BRD continued to enhance the YOU BRD digital ecosystem through the rollout of new customer-centric functionalities, including travel insurance for standard cardholders, Click to Pay integration for secure online card payments, and pre-approved Expresso consumer loans available directly within the mobile application. The bank also expanded its insurance offering with the introduction of RCA insurance in YOU BRD mobile application, strengthened digital onboarding by enabling remote identification and activation using the new electronic identity card (CEI), and introduced State Treasury payment capabilities. In addition, BRD broadened its RoPay functionality to support a wider range of QR-based payments, including merchant, e-commerce, POS and invoice payments, further enhancing the digital customer experience.

BRD ensures continuous client access to its products and services through a combination of remote service channels, as mentioned above, and its branch network. The physical footprint remained stable over the six months, at 334 branches since March 2026 end, with 275 locations offering 24H self service capabilities for cash transactions.

Resilient financial performance

During 9M 2026, BRD Group's revenues reached RON 3,341 million, up by +2.7% YoY, reflecting resilient performance despite challenging environment and persistent competitive pressures.

Net interest income, contributing more than 70% of total revenues, increased by +2.8% YoY in 9M 2026, up to RON 2,378 million. Interest income increased by 6% YoY, amid broad based growth in lending volumes, across both retail and companies' segments. The increase in interest expense (+11.3% YoY) was mainly driven by larger funding base, while remuneration continued to be pressured given the continued intense competition for customers' resources.

Net fees and commissions registered a mild contraction of -0.7% YoY over the nine-month period, reaching RON 671 million mainly driven by account management fees and e-banking, while higher AuM and improved client activity supported growing revenues from custody, brokerage, asset management and off-balance sheet commitment.

Other banking income evolution (+10.9% YoY) mainly reflects the recognition of one-off revenue and previous year base effect, while trading result printed lower in a volatile context.

Operating expenses remained broadly stable over the analysed period, despite the inflationary environment and the higher turnover tax impact in 9M 2026, following the increase in the tax rate from 2% to 4% effective July 2025. This performance reflects the continued strict management of costs. Staff costs decreased by -7.4% YoY during 9M 2026 underpinned by workforce optimisation initiatives in a rapidly evolving and highly competitive environment. Other costs (excluding tax on turnover and FGDB&RF contributions in 2025, as no contribution was required in 2026) increased by +4.6%, with higher IT&C related expenses, the principal driver, reflecting depreciation of past investments and ongoing infrastructure and digitalization initiatives. The tax on turnover amounted to RON 209 million for 9M 2026 vs RON 133 million for 9M 2025 reflecting the doubling of the tax rate from 2% to 4% starting July 2025 as well as increasing gross revenues.

BRD Group registered an improved operating performance, with gross operating income amounting to RON 1,702 million in 9M 2026, +5.5% YoY. Excluding the tax on turnover and FGDB&RF cumulated contributions (from 2025 cost base, no contribution was required for 2026), C/I was significantly reduced at 42.8% in 9M 2026 (vs. 44.8% in 9M 2025), -197 bps YoY.

The loan book quality remained solid throughout 9M 2026, with the Bank's NPL ratio at 2.7% at end-September 2026, below the banking system average (2.9% at end-August 2026), and with a comfortable NPL coverage level of 67.4%. Net cost of risk at Group level increased to RON 254 million in 9M 2026 compared to RON 195 million in the same period of the previous year, mainly reflecting the expected risk costs in a challenging macroeconomic context, alongside portfolio developments and updated macroeconomic assumptions.

BRD Group delivered a net result of RON 1,176 million compared to RON 1,158 million in 9M 2025. Excluding the tax on turnover, ROE would stand at 16.9% in 9M 2026 vs 17.5% in 9M 2025, supported by the Group's disciplined execution despite a demanding operating environment and intense competition.

BRD standalone capital adequacy ratio is at a comfortable level of 21% as of September 2026 end.

BRD Group financial results for the period ended September 30, 2026 are available to the public and investors on the website of the bank, www.brd.ro, beginning with 9h00. Copies of the documents can also be obtained upon request, free of charge, at the head office of BRD-Groupe Société Générale, located at 1-7, Ion Mihalache Bd., 1st district, Bucharest.

Notes:
NPL ratio, NPL coverage ratio (acc to EBA), at Bank level.
Capital adequacy ratio at September 2026 end is preliminary.
If not stated otherwise, all variations are vs. 9M 2025 (for income statement related items) or September 2025 end (for balance sheet-related items).

BRD - Groupe Societe Generale operates a network of 334 units. Total assets of the Bank at September 2026 end amounted to RON 96.9 billion.
BRD is part of the Societe Generale Group, one of Europe's leading financial services groups and a major player in the economy for over 160 years. The group has around 110,000 employees in 58 countries and more than 27 million customers worldwide and is built on three complementary business lines, embedding ESG offerings for all its clients:

- French Retail, Private Banking and Insurance
- Global Banking and Investor Solutions
- Mobility, International Retail Banking and Financial Services

The accompanying notes are an integral part of these condensed interim financial statements.

1. Corporate information

BRD–Groupe Société Générale (the "Bank" or "BRD") is a joint stock company incorporated in Romania. The Bank commenced business as a state-owned credit institution in 1990 by acquiring assets and liabilities of the former Banca de Investitii. The Bank headquarters and registered office is 1-7 Ion Mihalache Blvd, Bucharest.

BRD together with its subsidiaries (the "Group') offers a wide range of banking and financial services to corporates and individuals, as allowed by law. The Group accepts deposits from the public and grants loans and leases, carries out funds transfer in Romania and abroad, exchanges currencies and provides other financial services for its commercial and retail customers.

Bank's immediate and ultimate controlling party is Société Générale S.A. as of 30 September 2026 (the "Parent" or "SG").

The Bank has as of 30 September 2026 334 units throughout the country (31 December 2025: 347).

The average number of active employees of the Group during the first three quarters of 2026 was 4,859 (2025: 5,458) and the number of active employees of the Group as of the period-end was 4,752 (31 December 2025: 5,124).

The average number of active employees of the Bank during the first three quarters of 2026 was 4,701 (2025: 5,300) and the number of active employees of the Bank as of the period-end was 4,595 (31 December 2025: 4,965).

The active employees are the full-time employees (excluding maternity leave and long-term sick leave).

BRD–Groupe Société Générale has been quoted on Bucharest Stock Exchange ("BVB") with the symbol "BRD" since January 15, 2001. The free float shares represent 39.83% from the total shares.

The shareholding structure of the Bank is as follows:

	30 September 2026	31 December 2025
Societe Generale	60.17%	60.17%
Fondul de pensii administrat privat NN	6.04%	6.04%
Fondul de pensii administrat privat AZT Viitorul Tau	4.69%	4.80%
Fondul de pensii administrat privat Metropolitan Life	4.33%	4.35%
Infinity Capital Investments SA	3.83%	3.95%
Legal entities	16.72%	16.32%
Individuals	4.22%	4.38%
Total	**100.00%**	**100.00%**

2. Basis of preparation

a) Basis of preparation

The condensed separate interim financial statements as of 30 September 2026 are of the Bank BRD–Groupe Société Générale. The condensed consolidated and separate interim financial statements as of 30 September 2026 are not audited nor reviewed (references with Unattested (*) are included in the condensed consolidated and separate interim financial statements and selected explanatory notes). The condensed consolidated and separate interim financial statements for the nine months ended 30 September 2026 have been prepared in accordance with *IAS 34 Interim Financial Reporting* as adopted by the European Union.

The condensed consolidated and separate interim financial statements include both separate and consolidated financial statements and do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2025, prepared in accordance with International Financial Reporting Standards as adopted by the European Union and the National Bank of Romania (NBR) Order no. 27/2010 for approving accounting Regulations in accordance with International Financial Reporting Standards, republished, and subsequent amendments (the "NBR Order 27/2010").

The condensed consolidated interim financial statements as at 30 September 2026 include the condensed consolidated interim statement of financial position, the condensed consolidated interim statement of profit or loss, the condensed consolidated interim statement of comprehensive income, the condensed consolidated interim statement of changes in shareholders' equity, the condensed consolidated interim cash flow statement and notes to the condensed consolidated interim financial statements.

The condensed separate interim financial statements as at 30 September 2026 include the condensed separate interim statement of financial position, the condensed separate interim statement of profit or loss, the condensed separate interim statement of comprehensive income, the condensed separate interim statement of changes in shareholders' equity, the condensed separate inerim cash flow statement and notes to the condensed separate interim financial statements.

The condensed consolidated and separate interim financial statements as at 30 September 2026 are presented in Romanian lei ("RON"), which is the Bank's functional currency and the Bank's and the Group's presentation currency rounded to the nearest thousands, except when otherwise indicated. The condensed consolidated and separate interim financial statements as at 30 September 2026 have been prepared on an historical cost basis, except for financial assets at fair value through profit and loss, financial assets through other comprehensive income, derivative financial instruments, other financial assets and liabilities held for trading, which have all been measured at fair value.

The Group and Bank's management has assessed the Group and Bank's ability to continue as a going concern and is satisfied that the Bank has the resources to continue business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern. Therefore, the condensed consolidated and separate interim financial statements are prepared on the going concern basis.

In making this judgement management considered the Group's financial position, current intentions, profitability of operations and access to financial resources, and analysed the impact of recent macro-economic developments on future operations of the Group.

2. Basis of preparation

b) Basis for consolidation

The condensed consolidated interim financial statements are of BRD–Groupe Société Générale and its subsidiaries as at 30 September 2026. The financial statements of the subsidiaries are prepared for the same reporting period, using consistent accounting policies.

A subsidiary is an entity over which the Bank exercises control. An investor controls an investee when it is exposed or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The condensed consolidated interim financial statements include the financial statements of BRD–Groupe Société Générale and the following subsidiaries: BRD Sogelease IFN S.A. (99.98% ownership, 2025: 99.98%) and BRD Asset Management SAI S.A. (99.98% ownership, 2025: 99.98%).

As at 31 December 2025 BRD Finance S.A. was liquidated and the total amount of 47,371 was collected and recognized against the value of participation of 39,893 and an income of 7,477.

All intercompany transactions, balances and unrealized gains and losses on transactions between consolidated entities are eliminated on consolidation.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Bank obtains control and continue to be consolidated until the date such control ceases.

The Bank is accounting for the investments in subsidiaries, associates and joint ventures in the condensed separate interim financial statements at cost less impairment adjustment.

As at 30 September 2026:

For BRD Asset Management SAI SA, the Group consolidates only the administrator of the funds not also the funds administrated by the administrator. As at 30 September 2026 and 31 December 2025 BRD Groupe Société Générale has no holdings in funds. Previously fund units were treated as unconsolidated structured entities.

On 9 March 2026, BRD Groupe Société Générale, through BRD Asset Management S.A.I., entered into an agreement with Patria Bank for the acquisition of 99.9944% of Patria Asset Management, a company operating on the Romanian UCITS market. Starting 30 September 2026, BRD Asset Management S.A.I consolidated Patria Asset Management in its accounts and recognized a goodwill from this transaction of 22,825, representing the difference between the acquisition price of 28,872 and Patria Asset Management fair value of net assets at the date of acquisition.

2. Basis of preparation (continued)

c) Changes in accounting policies and adoption of revised/amended IFRS

The accounting policies adopted are consistent with those of the previous financial year.

- **Amendments to the Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7**

On 30 May 2024, the IASB issued amendments to IFRS 9 and IFRS 7 to:

(a) clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system; (b) clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion; (c) add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and (d) update the disclosures for equity instruments designated at fair value through other comprehensive income (FVOCI).

The Group and the Bank are in the process of assessing the impact and will reflect the updates starting with the financial statements for year end 31 December 2026.

- **Annual Improvements to IFRS Accounting Standards**

IFRS 1 was clarified that a hedge should be discontinued upon transition to IFRS Accounting Standards if it does not meet the 'qualifying criteria', rather than 'conditions' for hedge accounting, in order to resolve a potential confusion arising from an inconsistency between the wording in IFRS 1 and the requirements for hedge accounting in IFRS 9. IFRS 7 requires disclosures about a gain or loss on derecognition relating to financial assets in which the entity has a continuing involvement, including whether fair value measurements included 'significant unobservable inputs'. This new phrase replaced reference to 'significant inputs that were not based on observable market data'. The amendment makes the wording consistent with IFRS 13. In addition, certain IFRS 7 implementation guidance examples were clarified and text added that the examples do not necessarily illustrate all the requirements in the referenced paragraphs of IFRS 7. IFRS 16 was amended to clarify that when a lessee has determined that a lease liability has been extinguished in accordance with IFRS 9, the lessee is required to apply IFRS 9 guidance to recognise any resulting gain or loss in profit or loss. This clarification applies to lease liabilities that are extinguished on or after the beginning of the annual reporting period in which the entity first applies that amendment. In order to resolve an inconsistency between IFRS 9 and IFRS 15, trade receivables are now required to be initially recognised at 'the amount determined by applying IFRS 15' instead of at 'their transaction price (as defined in IFRS 15)'. IFRS 10 was amended to use less conclusive language when an entity is a 'de-facto agent' and to clarify that the relationship described in paragraph B74 of IFRS 10 is just one example of a circumstance in which judgement is required to determine whether a party is acting as a de-facto agent. IAS 7 was corrected to delete references to 'cost method' that was removed from IFRS Accounting Standards in May 2008 when the IASB issued amendment 'Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate'.

The Group and the Bank are in the process of assessing the impact and will reflect the updates starting with the financial statements for year end 31 December 2026.

- **Contracts Referencing Nature-dependent Electricity Amendments to IFRS 9 and IFRS 7**

No material impact for Group and the Bank was identified from the application of these amendments.

2. Basis of preparation (continued)

d) Standards and interpretations that are issued but have not yet come into effect

Standards and interpretations effective from 1st of January 2027 or later:

- **IFRS 18 Presentation and Disclosure in Financial Statements**

In April 2024, the IASB has issued IFRS 18, the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its 'operating profit or loss'. IFRS 18 will apply for reporting periods beginning on or after 1st of January 2027 and also applies to comparative information.

The Group and the Bank are in the process of assessing the impact and will reflect the updates starting with the financial statements for year end 31 December 2027.

- **IFRS 19 Subsidiaries without Public Accountability with amendments**

No material impact for Group and the Bank was identified from the application of these amendments.

- **Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates: Translation to a Hyperinflationary Presentation Currency**

The International Accounting Standards Board (IASB) has issued amendments that clarify how companies should translate financial statements from a non-hyperinflationary currency into a hyperinflationary one.

These narrow-scope amendments aim to improve the usefulness of the resulting information in a cost-effective manner. Developed in response to stakeholder feedback, these amendments are expected to reduce diversity in practice and provide a clearer basis for reporting in a hyperinflationary currency.

- **IFRS 20 Regulatory Assets and Regulatory Liabilities**

The International Accounting Standards Board (IASB) has issued IFRS 20 Regulatory Assets and Regulatory Liabilities, a new Accounting Standard for companies subject to a specific type of rate regulation. It aims to help investors better understand how that rate regulation affects a company's financial performance, financial position and its prospects for future cash flows.

The Standard will affect companies subject to rate regulation that determines how much a company can charge customers and when it can charge them. Companies that supply vital services such as electricity, water and gas are often subject to this type of regulation.

2. Basis of preparation (continued)

d) Standards and interpretations that are issued but have not yet come into effect (continued)

IFRS 20 is expected to reduce diversity in accounting practices and improve comparability between companies in regulated industries.

IFRS 20 is effective for annual reporting periods beginning on or after 1 January 2029. Companies may choose to apply the Standard earlier.

IFRS 20 supplements the information a company provides when applying IFRS 15 Revenue from Contracts with Customers and replaces IFRS 14 Regulatory Deferral Accounts.

No material impact for Group and the Bank was identified from the application of this standard.

Amendments published but rejected or deferred by the EU:

- **IFRS 14 Regulatory Deferral Accounts**
- **Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 and IAS 28**

e) Significant accounting judgments and estimates

In the process of applying the Group and Bank's accounting policies, the management is required to use its judgments and make estimates in determining the amounts recognized in the condensed consolidated and separate interim financial statements. The most significant use of judgments and estimates are as follows:

Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, judgment is required to establish fair values. The judgments include considerations of liquidity and model inputs such as volatility for longer dated derivatives and discount rates, prepayment rates and default rate assumptions for asset backed securities. The valuation of financial instruments is described in more details in Note 41.

Expected credit losses on financial assets at amortised cost and FVOCI

Measurement of ECLs is a significant estimate that involves determination of methodology, models and data inputs. The following elements have a major impact on expected credit losses: definition of default, criteria for assessing if there has been a significant increase in credit risk ("SICR"), probability of default ("PD"), exposure at default ("EAD"), and loss given default ("LGD"), as well as models of macro-economic scenarios ("FLI").

The main considerations for the loan impairment assessment include whether any payments of principal or interest are overdue by more than 90 days, whether a severe alteration in the counterparty's financial standing is observed, entailing a high probability that the debtor will not be able to fully meet its credit obligations, whether concessions in the form of restructuring were consented under the circumstances of financial hardship experienced by the debtor, whether legal procedures were initiated or the debtor was transferred to specialized recovery structures (regardless of the number of days past due).
Please refer to Note 9 for more details.

2. Basis of preparation (continued)

e) Significant accounting judgments and estimates (continued)

The Bank's expected credit loss model (ECL) relies on several underlying assumptions regarding the choice of variable inputs and their interdependencies, which affect the level of allowances:

- The internal credit rating model, which assigns probabilities of default (PDs) to the individual ratings
- The criteria defined (both quantitative and qualitative) for the assessment of significant increase in credit risk since initial recognition and consequently the computation of allowances based on life time expected credit loss (LTECL)
- The grouping of financial assets when their ECL is measured on a collective basis
- The development of models used for ECL calculation, including the various formulas and the choice of inputs.
- The Bank has finalized in 2025 the development of new LGD models based on a workout approach, for both Retail and Non-Retail segments.
- The macroeconomic scenarios and their probability weightings based on which ECL is derived
- The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the consolidated and separate financial statements. To reflect this, the Bank assesses the need/opportunity for additional amounts of provisions in the form of overlays, in order to address:
  - sector of activity specific risks (adjustment of ECL on sectors that have a different default behavior from the whole calibration segment);
  - visible macroeconomic threat impossible to be captured by the models, typically when the macroeconomic variable subject to stress can not be statistically incorporated into the ECL model, or the forward looking information factor is not applied for the underlying parameter

- For individually significant loans and advances, the Group and Bank identify and quantify the expected future cash flows to be used for a total or partial reimbursement of the obligations, based on the capacity of the client/business to generate revenues, proceeds resulting from sale of collaterals and other clearly identified sources of repayment. The individual assessment threshold is defined in between client's balance as of 500 - 1,500 thousand EUR.

Provisions for other risks and charges

The Bank operates in a regulatory and legal environment that, by nature has a heightened element of litigation risk inherent to its operations and, as a result, it is involved in various litigations or is subject to various obligations arising from legislation in force. When the Bank can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Bank records a provision against the case, as mentioned in this note. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Generally, the first step is to establish the existence of the present obligation followed by the estimation of the amount needed to settle that obligation considering a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgment is required to conclude on these estimates.

2. Basis of preparation (continued)

e) Significant accounting judgments and estimates (continued)

In case of litigations:

i. For a single individual litigation the Bank assess whether there is more likely than not to have an unfavourable court decision considering the factors mentioned above; then it estimates the amount at risk; in case there are several scenarios possible with different outcomes, the amount at risk is the weighted average of the amounts at risk for each scenario using the probability distribution for all scenarios (100% is allocated to the possible scenarios) and provisions 100% of the estimated amount;

ii. For collective litigations, the assessment of "more likely than not" could be substantiated for the entire population using statistics and provision computation to be made at pool level.

In case of obligations arising from various legislation, the Group and Bank assess first if there is no realistic alternative of settling that obligation, and if not, it estimates the amount needed to settle that obligation (using similar approach as above) and books provisions representing 100% of the estimated amount.

Please refer to Note 20 and Note 40 for more details.

f) Segment information

A segment is a component of the Group:

- that engages in business activity from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and
- for which distinct financial information is available.

The Group's segment reporting is based on the following segments: *Retail* including Individuals and Small Business, *Non-retail* including Small and Medium Enterprises ("SMEs") and Large corporate and *Corporate Center* including: treasury activities, ALM and other categories unallocated to the business lines mentioned above (fixed assets, taxes, equity investments, etc.).

3. Segment information

The segments used for management purposes are based on customer type and size, products and services offered and follow the aggregation criteria from IFRS 8.

The operating segments' operating results are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance.

Each segment is assessed both from Statement of financial position and Statement of profit or loss perspective.

In Retail (Individuals & Small Business) category the following customer's segments are identified:

- Individuals – the Bank provides individual customers with a range of banking products such as: saving and deposits taking, consumer and housing loans, overdrafts, credit card facilities, funds transfer and payment facilities, etc.
- Small business – business entities with annual turnover lower than 2 million EUR and having an aggregated exposure at group level less than 1 million EUR*. Standardised range of banking products is offered to small companies and professional: saving and deposits taking, loans and other credit facilities, etc.

Retail customers include clients with similar characteristics in terms of financing needs, complexity of the activity performed and size of business for which a range of banking products and services with medium to low complexity is provided.

In Non–Retail category the following customer's segments are identified:

- Small and medium enterprises (companies with annual turnover between 2 million EUR and 50 million EUR and the aggregated exposure at group level higher than 1 million EUR*);
- Large corporate (corporate banking and companies with annual turnover higher than 50 million EUR, municipalities, public sector and other financial institutions).

The Bank provides these customers with a range of banking products and services, including saving and deposits taking, loans and other credit facilities, transfers and payment services, provides cash-management, investment advices, securities business, project and structured finance transaction, syndicated loans and asset backed transactions.

The Corporate Center includes: treasury activities, ALM and other categories unallocated to Retail and Non-Retail business lines.

The Management monitors the activity of each segment separately for the purpose of performance assessment and follow up in the quarterly business lines presentation.

**To better align with the current economic landscape and maintain BRD's competitive edge through a standardized portfolio-based approach, starting January 2026 the segmentation thresholds between Small Business and Non-Retail clients was updated for new client's acquisition (with no impact on the current Non Retail stock) as follows: annual turnover increase from EUR 1 million to EUR 2 million and Group aggregated exposure increase from EUR 300/500k to EUR 1 million.*

6. Derivatives and other financial instruments held for trading (continued)

The Bank continues to apply hedge accounting (fair value hedge) as of 30 September 2026 and has three hedging relationships (four hedging relationships as of 31 December 2025). The Bank applies EU carve-out.

- On 30 June 2018, the Bank initiated two macro fair value hedges one in EUR and one in USD of interest rate risk associated with the current accounts, using several interest rate swaps (pay variable, receive fixed). The change in the fair value of the macro fair value hedge swaps offsets the change in the fair value of the hedged portion of the current accounts. The hedged items are represented by the portion of the current accounts' portfolio equal to the swap's nominal values of:
  - 36 million EUR yearly with a fixed interest rate of 0.42%, the remaining period as of 30 September 2026 of 1.75 years.
  - 8 million USD yearly with a fixed interest rate of 2.813%, the remaining period as of 30 September 2026 of 1.75 years.

- On 30 October 2020 the Bank initiated a macro fair value hedge of interest rate risk associated with the current accounts, using several interest rate swaps (pay variable, receive fixed). The change in the fair value of the macro fair value hedge swaps offsets the change in the fair value of the hedged portion of the current accounts. The hedged item is represented by the portion of the current accounts' portfolio equal to the swaps nominal of 140 million EUR. The swap has a fixed interest rate of -0.403% and a remaining period of 4.09 years.

All hedging relationships have quarterly settlement periods for both fixed and variable legs. The macro hedging relationships were effective throughout the reporting period. Main source of hedge ineffectiveness that might be expected to affect the hedging relationships is the amortization model of current accounts. However, the amortization of the hedged item is based on a behavioral ALM model that is reviewed/back tested on a yearly basis. To avoid inefficiency generated by the underestimated amortization of the current accounts, maximum 70% of the current accounts portfolio per each time band is designated as hedged item.

The hedging relationship were designated on the date of the IRS origination. At that date, the theoretical derivative was built as to match the interest rate behavior of the current accounts, the hedged item (i.e. a spread was added to the variable leg so that the fair value of the theoretical swap on the designation date to be zero). Consequently, no other major sources of ineffectiveness were identified.

As at 30 September 2026, the accumulated amount of fair value hedge adjustments on the current accounts hedged item are included in the carrying amount and presented in due to customer line in the statement of financial position and amounts to -77,718. The change in value of the hedged item during the period is explained by the cumulated effect of a loss from revaluation in amount of 3,553 and of the exchange rate evolution effect in amount of -2,733.

As at 31 December 2025, the accumulated amount of fair value hedge adjustments on the current accounts hedged item are included in the carrying amount and presented in due to customer line in the statement of financial position and amounts to -78,538. The change in value of the hedged item during the period is explained by the cumulated effect of a loss from revaluation in amount of 35,892 and of the exchange rate evolution effect in amount of -2,091.

6. Derivatives and other financial instruments held for trading (continued)

The fair value of hedging instrument for Group and Bank was the following:

	30 September 2026		
	Assets	Liabilities	Notional (total)
Interest rate swaps	-	82,298	1,150,943

	31 December 2025		
	Assets	Liabilities	Notional (total)
Interest rate swaps	-	82,382	1,372,612

7. Financial assets at fair value through profit or loss

Rating analysis of loans

Lending exposure is classified according to the internal obligor rating that serves to quantify the risk associated with a specific counterparty. The obligor rating is based on the SG Master Scale that comprises 22 detailed notches, that can be summarized in 10 notches when grouping each of the three nearby performing ratings (e.g. 3+, 3, 3- grouped as 3). Each rating has an associated a range of probabilities of default for one year time horizon. The rating scale and the corresponding probability of default, as well as the rating scales used by the main external credit assessment institutions are presented in the table below.

	Unified Counterparty Rating Scale (Performing categories)					
	Note SG	**Note Moody's**	**Note S&P**	**Note Fitch IBCA**	**1-Year Probability of Default (PD) Range**	
					Interval	**Average**
	1	Aaa	Aaa	**AAA**	[0,0000%;0,0112%)	0,0090%
Performing	2+	Aa1	AA+	**AA+**	[0,0112%;0,0165%)	0,0140%
	2	Aa2	AA	**AA**	[0,0165%; 0,0225%)	0,0195%
	2-	Aa3	AA-	**AA-**	[0,0225%;0,0287%)	0,0259%
	3+	A1	A+	**A+**	[0,0287%;0,0339%)	0,0317%
	3	A2	A	**A**	[0,0339%; 0,0472%)	0,0363%
	3-	A3	A-	**A-**	[0,0472%;0,0894%)	0,0614%
	4+	Baa1	BBB+	**BBB+**	[0,0894%;0,1827%)	0,1300%
	4	Baa2	BBB	**BBB**	[0,1827%;0,3589%)	0,2568%
	4-	Baa3	BBB-	**BBB-**	[0,3589%;0,7427%)	0,5015%
	5+	Ba1	BB+	**BB+**	[0,7427%;1,5288%)	1,1000%
	5	Ba2	BB	**BB**	[1,5288%;2,6317%)	2,1248%
	5-	Ba3	BB-	**BB-**	[2,6317%;3,8774%)	3,2596%
	6+	B1	B+	**B+**	[3,8774%;5,9829%)	4,6123%
	6	B2	B	B	[5,9829%;9,4143%)	7,7608%
	6-	B3	B-	B-	[9,4143%;12,7916%)	11,4202%
Sensitive	7+	Caa1	CCC+	**CCC+**	[12,7916%;17,1134%)	14,3278%
	7	Caa2	CCC	**CCC**	[17,1134%;23,5996%)	20,4405%
	7-	Caa3	CCC-	**CCC-**	[23,5996%; 100%)	27,2469%

	Unified Counterparty Rating Scale (Default categories)					
Default	8 9 10	Ca C	D	**DDD** **DD** **D**	100%	100%

Classification in Stage 1 or Stage 2 does not depend only on the absolute probability of default but on the elements that make it possible to assess the significant increase in credit risk, including the relative change in the probability of default since initial recognition.

20. Provisions (continued)

20.2 Other provisions

	Group Unattested (*)		Bank Unattested (*)	
	30 September 2026	31 December 2025	30 September 2026	31 December 2025
Provisions for litigation	15,758	21,345	10,607	16,195
Provisions for risks related to banking activity	12,579	13,832	12,579	13,832
Other provisions for risks and charges	28,090	20,879	28,090	20,879
Total	**56,428**	**56,056**	**51,277**	**50,906**

The Group and Bank include in the line "Provisions for litigation" mainly the provision for abusive clauses detailed below, in the line "Provisions for risks related to banking activity" mainly the collective provision related to future potential litigations detailed below. In the line "Other provisions for risks and charges" are mainly the collective provision related to future possible outflow of resources regarding salary compensations.
The uncertainty regarding the timing of the payment for the amounts in dispute is mostly related to the extent of the litigation considering the practice of the Romanian courts.
The Bank has applied the individual assesment (case by case) for the abusive clause litigations to determine the provision amount.
The amount of the provision is reviewed periodically by the Bank based on the new court resolutions for litigations with clients for contracts which contain allegedly abusive clauses.

As of 30 September 2026, the Bank has recorded provisions for abusive clause litigations which are subject to an individual litigation assesment in total amount of 9,174 (31 December 2025: 9,341).

Based on historical experience, the Bank is facing litigations related to allegedly abusive clauses in loan contracts signed before 2010, specifically concerning credit file analysis fee, management/administration fee and variable interest rates reset internally by the Bank. Therefore according to IAS 37 Provisions, Contingent Liabilities and Contingent Assets (para 24&39), the Bank booked a collective provision related to future potential litigations in amount of 11,000. This collective provision is booked additionally to the ones already booked for open litigations (on a case by case basis assessed considering their probable negative outcome).

The movements in provisions are as follows:

Group Unattested (*)	**TOTAL**
Carrying value as of 31 December 2024	**49,915**
Additional provisions	48,584

Reversals of provisions	(7,903)
Usage	(1,997)
Carrying value as of 30 September 2026	**51,276**

The usage of Other provisions is mainly related to litigation and salary compensation.

21. Other financial liabilities

	Group Unattested (*)		Bank Unattested (*)	
	30 September 2026	31 December 2025	30 September 2026	31 December 2025
Sundry creditors	492,562	396,918	438,678	351,010
Creditors - lease liabilities	333,512	337,897	331,017	334,505
Total financial liabilities	**826,074**	**734,815**	**769,695**	**685,515**

The sundry creditors position includes also guarantee deposits received in amount of 72,791 as at 30 September 2026 (6,585 as at 31 December 2025) for Group and Bank.

22. Other non-financial liabilities

	Group Unattested (*)		Bank Unattested (*)	
	30 September 2026	31 December 2025	30 September 2026	31 December 2025
Other payables to State budget	112,561	143,738	111,947	143,174
Deferred income	75,466	78,607	75,466	78,607
Payables to employees	164,089	176,932	157,114	167,017
Total non-financial liabilities	**352,116**	**399,277**	**344,527**	**388,798**

The line “Other payables to State budget” includes the tax on turnover to be paid as of 30 September 2026 in amount of 70,252.

Payables to employees include, among other, gross bonuses, amounting 119,858 as of 30 September 2026 (31 December 2025: 129,336) and post-employment benefits amounting 29,099 as of 30 September 2026 (31 December 2025: 27,045).

Post-employment benefit plan

The Group/Bank has a defined benefit plan under which the amount of benefit that an employee is entitled to receive on retirement depends on years of service and salary. The plan covers substantially all the employees and the benefits are unfunded. A full actuarial valuation by a qualified independent actuary is carried out annually.

During 2026, the movements in defined benefit obligation is generated by the service cost and benefits paid, resulting in a change of obligation carrying value 29,099 as of 30 September 2026, from 27,045 as of 31 December 2025.

23. Share capital and other reserves

23.1 Share capital

The nominal share capital, as registered with the Registry of Commerce is 696,901 (2025: 696,901). Included in the share capital there is an amount of 1,818,721 (2025: 1,818,721) representing hyperinflation restatement surplus. Share capital as of 30 September 2026 represents 696,901,518 (2025: 696,901,518) authorized common shares, issued and fully paid. The nominal value of each share is 1 RON (2025: 1 RON). During 2026 and 2025, the Bank did not buy back any of its own shares.

The shares of the Bank are not divisible. The right of property over the shares is transmitted pursuant to the provisions regarding the transfer of securities of the companies admitted to trading on a regulated market. Any share entitles to one vote in the General Meeting of the Shareholders. The Bank may acquire its own shares only with the consent of the Extraordinary General Meeting of the Shareholders, in compliance with the law.

23.2. Other reserves

Other reserve of the Bank is mainly represented by the following 3 reserves:

The legal reserves is constituted by the transfer in a reserve fund of 5% of the net profit of the Bank up to minimum 20% of the Bank's share capital. As of 30 September 2026 the legal reserve was in amount of 244,157 (31 December 2025: 244,157).
The reserve representing the fund for the general banking risks was allocated from the pre-tax accounting profit of the Bank and calculated as 1% of the banking risk assets. As of 30 September 2026 the general banking risk reserve was in amount of 170,762 (31 December 2025: 170,762).
The general reserve for credit risk was allocated from the pre-tax accounting profit of the Bank until it reached the level of 2% from the balance of the loans granted. As of 30 September 2026 the general reserve for credit risk was in amount of 98,596 (31 December 2025: 98,596).

Other reserves besides those presented above, in amount of 36,124 as of 30 September 2026 (31 December 2025: 36,124), are represented mainly by benefits granted in the form of equity instruments.

23.3. Dividends

Dividends are deducted from equity and recognized as a liability in the period in which they are declared. In accordance with the legislation, the Bank distributes profits as dividends or transfers them to retained earnings on the basis of financial statements prepared in accordance with IFRS. The dividends approved and distributed in 2025 out of 2024 profit were in total amount of 737,392 and the dividends approved and distributed in 2026 out of 2025 profit were in amount of 749,309.

24. Taxation

Current income tax is calculated based on the taxable income as per the tax statement derived from the stand-alone accounts of each consolidated entity. As of 30 September 2026 the Group has a current tax liability in total amount of 97,485 (31 December 2025: 11,885) and a current tax asset in amount of 0 (31 December 2025: 0) and at Bank level a current tax liability in total amount of 92,423 (31 December 2025:7,350) and current tax asset in amount of 0 (31 December 2025: 0).

24. Taxation (continued)

The deferred tax asset is reconciled as follows:

31. Contribution to Guarantee Scheme and Resolution Fund

31.1 Contribution to Guarantee Scheme

According to the Romanian legislation (Law no. 311/2015 on Deposit Guarantee Schemes and the Bank Deposit Guarantee Fund), the deposits of individuals and certain entities, including small and medium enterprises and large companies are covered up to EUR 100,000 by the Bank Deposit Guarantee Fund ("Fund"). Each credit institution participating to deposit guarantee scheme shall pay the annual contribution as determined and notified by the Fund. The amount of the contribution refers to the total covered deposits at the end of the previous year and also reflects the degree of risk associated to each credit institution in the scheme.

The degree of risk is determined based on the financial and prudential indicators reported by the credit institutions to the National Bank of Romania. For this purpose, the Bank Deposits Guarantee Fund uses a methodology approved by the National Bank of Romania considering also the guidelines issued by the European Banking Authority.

For the entire year 2026 the expense related to the Deposit Guarantee Fund is 0 (2025: 15,836).

31.2 Contribution to Resolution Fund

According to Law no. 312/2015 on recovery and resolution of credit institution and investment firms, each credit institution shall pay an annual contribution to Bank Resolution Fund as determined and notified by the National Bank of Romania.

The National Bank of Romania as the local resolution authority establish the credit institutions annual contributions to Bank Resolution Fund, in compliance with Commission Delegated Regulation EU 2015/63, supplementing Directive 2014/59 of the European Parliament and of the Council with regard to ex ante contributions to resolution financing arrangements.

For the entire year 2026 the expense related to the Bank Resolution Fund is 0 (2025: 33,301).

Both contributions to the Bank Deposit Guarantee Fund and Bank Resolution Fund meet the criteria for recognition as taxes and accounted in accordance with IFRIC 21 "Levies" requirements. The liability is recognized at the date when the obligating event occurs and the contribution is recognized as an expense in full in January of the year in which the payment is made.

Administrative expenses include for the Bank expenses related to short-term leases of 10,066 (30 September 2025: 8,401) and to leases of low-value assets of 2,966 (30 September 2025: 3,005) and software licences in total amount of 53,063 (30 September 2025 in amount of 46,814).

According to Law 296/2023, the Romanian Fiscal Code was amended to introduce, starting 1st of January 2024, a supplementary tax for credit institutions, i.e. the tax on turnover which is computed as follows: for 2024 and first six months in 2025 the tax is 2% from the turnover and 4% from the turnover starting July 2025 (turnover as defined by Romanian Fiscal Code as per Article 46[(1)]). The tax is additional to the corporate income tax, it is computed and payable on a quarterly basis and is a non-deductible expense. The line Tax on turnover represents the tax expense for the first nine months in 2026, in amount of 209,046.

37. Guarantees and other credit commitments

Guarantees and letters of credit

The Group and Bank issues guarantees and letters of credit for its customers. The primary purpose of letters of credit is to ensure that funds are available to a customer as required. Guarantees and standby letters of credit, which represent irrevocable assurances that the Group and Bank will make payments in the event that a customer cannot meet its obligations (delivery of goods, documents submitting, etc.) to third parties with which it entered previously into a contractual relationship, carry a similar credit risk as loans once they are executed.

The market and credit risks on these financial instruments, as well as the operational risk are similar to those arising from granting of loans. In the event of a claim on the Group and Bank as a result of a customer's default on a guarantee these instruments also present a degree of liquidity risk to the Group and Bank.

Credit related commitments

Financing commitments represent unused amounts of approved credit facilities.

The Group and Bank monitors the term to maturity of credit commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments. The total outstanding contractual amount of commitments does not necessarily represent future cash requirements since many of these commitments will expire or be terminated without being funded.

The other commitments presented above include short term and low value leases, software maintenance contracts and other IT services.

39. Related parties

The Group entered into related party transactions with its parent, other related parties (include other SG entities and also other close family members of the key management of the institutions or other entities in which key management of the institution have interests), subsidiaries, associates, joint venture and key management personnel. All related party transactions were made on substantially the same terms, including interest rates and collateral requirements, as those prevailing for similar transactions with unrelated parties. The transactions/balances with subsidiaries were eliminated for consolidation purposes. The transactions/balances with related parties can be summarized as follows:

39. Related parties (continued)

Other liabilities and other expenses include corporate and technical assistance with Société Générale Paris.

The Bank has received from SG Paris collaterals regarding derivative instruments in total amount of 49,723 as at 30 September 2026 (31 December 2025: 66,597 collateral granted to SG Paris).
As at 30 September 2026 the Board of Directors and Managing Committee members own 1,030 shares (31 December 2025: 1,030).

40. Contingencies

As of 30 September 2026 the Bank is the defendant in a number of lawsuits arising in the normal course of business, amounting to approximately 64,623 (31 December 2025: 63,923). The amounts disclosed represent the additional potential loss in the event of a negative court decision, the amounts not being provisioned. The management consider that the ultimate resolution of these matters will not have a material adverse effect on the Bank's overall financial position and performance, beyond the already assessed provisions. The Bank already booked a provision of 10,606 (31 December 2025: 16,194) and the Group 15,757 (31 December 2025: 21,345) in relation with these litigations.

Competition Council

Over the past years, the Bank (together with other banks) was subject of two investigations by the Competition Council (RCC):

ROBOR Case:
First investigation was launched ad-hoc in October 2022 and concerns a potential infringement of the competition regulations regarding the fixing of reference ROBOR rates.

On 6 April 2026 the RCC issued its Investigation Report according to which the key allegation is that the visibility of competitors' quotes during the fixing window eliminated uncertainty and facilitated coordination and proposed sanctions are up to 10% of annual turnover.
Subsequently, investigated banks (including BRD) submitted written observations, participated in the oral hearing (25 May 2026) and submitted written conclusions post-hearing.

On 5 June 2026 RCC adopted its decision and all 10 banks were sanctioned, the infringement referring to exchange of information and coordinated behavior in ROBOR fixing. (to be confirmed by the reasoned decision).
BRD sanction amounts to RON 412,479,686.64 (~EUR 79.3 million), representing 6.1875% of 2025 turnover.
Additional obligations concern ceasing the alleged conduct and submitting a remedial action plan within 60 days (from communication of the decision).

On 28 September 2026 BRD received the reasoning of the decision. RCC's case rests on two pillars:

- the visibility of ROBOR quotations during fixing window, which RCC characterizes as an exchange of confidential and strategically sensitive information between competing panel banks
- the communication of economic forecasts and macroeconomic outlooks, which the RCC treats as signaling of future conduct – a form a coordinated behavior, capable of reducing strategic uncertainty among competitors.

On 16 October 2026 BRD filed court actions against the RCC decision:

- the application for suspension of the Competition Council's decision; and
- the action for annulment of the Competition Council's decision on the merits.

40. Contingencies (continued)

Based on this facts, at the reporting date, according to IAS 37, and considering that the legal / court proceedings have not been started, the significant uncertainties associated with such cases, and the range of possible outcomes, the conclusion is that an outflow of economic resources embodying economic benefits is not probable, at this point. Accordingly, no provision has been recognised in relation to this matter as at 30 September 2026.

Credit Bureau:
Second investigation was launched in July 2023 and concerns the activity of the Credit Bureau and, more specifically, how usage of the FICO scoring is influenced by the number of banks' interrogations with the Credit Bureau. The investigation is ongoing and no report has been issued.

National Agency for Consumer Protection ("ANPC 1")

During 2023, ANPC launched an investigation on a large number of banks concerning the observed most employed method of reimbursement schedule computation (i.e. equal instalments). The Bank was fined with 50 for deceiving marketing practice and received an ANPC order to stop these practices.

As a conclusion, ANPC:
- is challenging the economic model of "constant annuity (equal monthly payments)" for the rate of credit for individuals, arguing that according to the repayment schedule, the instalment included, during the first years, mainly (75% of the instalment) the interest related to the loan and, to a smaller extent, the principal;
- does not question the legality of such an approach but insists on the fact that consumers are not sufficiently/clearly informed about the advantages/disadvantages of choosing the type of reimbursement, i.e. equal monthly payments versus decreasing monthly payments.

BRD challenged the ANPC's Decision to fine the Bank in front of the Court. The Court ruled in BRD's favor on 2 September 2024 and annulled the ANPC's Decision. Most probably, ANPC will file an appeal against the first court's ruling.

National Agency for Consumer Protection ("ANPC 2")

During 2024, ANPC has started an investigation concerning the loans granted under the Law 190/1999 and concluded during 2004-2010, with variable interest and management fee perceived simultaneously. The Bank was fined with 60 and remedial measures (reimburse the barrowers with the amount paid in excess) had been imposed to the Bank.
The loan agreements in scope were those between 2004 – 2010. Several other bank were subject of the ANPC Control. Most important points in this report:

1. Variable interest: ANPC alleges that the mechanism to determine and calculate the interest for the loans in the scope of the control, was not transparent toward the borrower. At that time the interest was calculated in respect of internal resources costs of the Bank, therefore, ANPC claims there was no objective and transparent element to determine the interest.
   ANPC Sanction: re-calculate the interest for the entire loan portfolio in the scope of the control – (only ongoing loans and under enforcement procedure) - and reimburse the borrowers with the amounts paid in excess (90 days to comply).

2. Mortgage loans granted under the law 190 / 1999 (no longer a BRD product) - ANPC alleges that BRD charged credit management fees outside the legal provisions valid at that time.
   ANPC Sanction: immediate stop such practice and calculate the credit management fee charged and reimburse the impacted borrowers.

40. Contingencies (continued)

The Bank filed a claim in court against the ANPC's findings. At this point in time, the ANPC's sanctions are suspended. On 30 March 2026, the court has issued its decision in the litigation initiated against the ANPC Report, and BRD has obtained a fully favourable ruling. The decision is not final, ANPC already filed an appeal.

National Agency for Consumer Protection ("ANPC 3")

In October 2024, based on a client complaint, the ANPC started an investigation on the Bank regarding the lack of transparency regarding the applicable interest rate for the automatically renewed deposits. ANPC alleges that the Bank had a legal obligation to inform consumers 30 days before an automatic renewal of a deposit about the new level of the interest rates and/or other BRD's available saving products.
The Bank was fined with 200 and remedial measures had been imposed to the Bank. The Bank filed a claim in court against the ANPC's finding and the next court hearing is set for 19 February 2027.

Considering the status of all above actions, the Bank assessed that as of 30 September 2026 and 31 December 2025, the criteria for booking a provision or a contingent liability are not met.

41. Fair value

Determination of fair value and fair value hierarchy

To determine and disclose the fair value hierarchy of the financial instruments, the Group follows the three-level classification of the inputs to valuation techniques used to measure fair value:

- **Level 1: quoted (unadjusted) prices** in active markets for identical assets or liabilities;
  Level 1 instruments contain the government bonds, priced directly by external counterparties on various dealing platforms (Bloomberg, Reuters etc.);

- **Level 2: other inputs** than those quoted princes included within Level 1, **that are observable** for that particular asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices);
  Level 2 instruments include in particular securities that cannot directly be quoted on the market (e.g. corporate bonds) and firm derivatives, with standard features and common maturities, whose value can be retrieved or derived from market data;

- **Level 3**: inputs that are not based on observable market data (**unobservable inputs**).
  Level 3 instruments include options traded over the counter and other derivatives with specifically-tailored return profiles and/or maturities extended over the normal spectrum;

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

41. Fair value (continued)

Financial instruments measured at fair value

The following is a description of the determination of fair value for financial instruments which are recorded at fair value using valuation techniques. These incorporate the Group's estimate of assumptions that a market participant would make when valuing the instruments.

Treasury notes are represented by treasury bills and bonds and are classified as financial assets at fair value through other comprehensive income or financial instruments held for trading measured at fair value through profit and loss, being measured using a valuation technique based on market quotes published by Bloomberg or by Reuters (market approach).

Derivatives
The fair value of the derivatives is determined using valuation techniques commonly known on the market, such as discounted cash flows for swaps or Black-Sholes formula for options.

Firm derivatives – interest rate swaps, currency swaps and forward foreign exchange contracts are the main derivative products measured using as valuation technique the income approach (discounting cash flows) and incorporating observable inputs from market (foreign exchange spot rate, forward rates, interest rate rates, futures), both directly observable ones (explicit parameters) and indirectly observable ones.

The directly observable parameters are variables that come directly from the market and are presumed to be easily available, accessible to each market participant. The main explicit parameters used in valuation of firm financial instruments are interbank fixing FX rates published by NBR, interbank swap points, interbank bid/ask interest rates, futures quotes on EUR and USD. Implicit parameters are variables obtained through standard intermediary calculation, using market prices for relevant financial instruments. The yield curves designated at the level of each product and currency are fed with explicit parameters according to the pre-set configuration, facilitating the computation of implicit parameters used in computing the fair value such as Zero-coupons, Discount Factors and Forward Interest Rates.

Conditional derivatives - FX options, interest rate options and equity options are valued daily, using the mark-to-model approach. The model is calibrated to derive the value of the option based on the current market conditions (spot rates) and the future values presumed to be attained by the underlying (forward exchange rates, FRAs etc.), integrating in the calculation the standard option-sensitivities (delta, gamma, vega, theta), along with information regarding the size of the positions and the liquidity of the instrument. The fair value is determined through SG's computation module, the values of the specific parameters being daily retrieved from the market and stored in the database, serving as direct input in the daily final formula or further used for the statistical calculation implied by the valuation process.

The Bank manages the group of these financial assets and liabilities (options) based on the entity's net exposure to a particular market risk (foreign exchange, interest rate, price risk) and, according to the trading book policy in place, The Bank assumes no residual market risk induced by option-trading. Any bought option is perfectly matched on the same day with a sold option, identical in terms of option type, underlying, exercise prices, maturity. The perfect back-to-back system is subject to daily controls performed at back-office level, to ensure that no mismatch occurred and there is no residual open position on options. Therefore, the impact of a specific change on the estimated value on one non-observable parameter used on the valuation of an option classified/accounted as financial asset is offset by same specific change on estimated value of the same non-observable parameter on the valuation of the mirror-replicated option classified/accounted as financial liability.

41. Fair value (continued)

Equities

These assets are valued using models which sometimes only incorporate data observable in the market and at other times use both observable and non-observable data. The non-observable inputs to the models include assumptions regarding the financial performance of the investee.
The fair value of equity instruments not listed classified as of fair value through profit and loss and consisting of ordinary shares of other entities is determined by using the net assets of the entities as of the end of the last closed reporting period. The entities net assets represent the best estimation of the current replacement cost that would be paid to replace the holding as it consists of the initial capital investment adjusted by the financial performance of the entity.

Movement in level 3:

Fair value of equity investments not listed is estimated based on net assets of the investments.

	Group / Bank Unattested (*)

42. Capital management

The Bank calculates the capital requirements in accordance with Basel III principles, implemented in the European Union law by the capital Directive (CRD IV - 36/2013), Regulation (CRR – 575/2013), technical regulatory standards and technical implementation standards issued by the European Banking Authority, with all subsequent amendments as of date. Locally, the European requirements are also adopted through National Bank of Romania (NBR) prudential regulations for credit institutions and investment firms: OUG 99/2006 on credit institutions and capital adequacy and NBR Regulation no. 5/2013 regarding prudential requirements.

Tier 1 capital includes CET 1 capital, namely eligible capital, eligible reserves and other comprehensive income less regulatory deductions. Tier 2 capital includes two subordinated loans in total amount of 250 million EUR (received in December 2021 and June 2022).

The Group and the Bank are in compliance with all externally imposed capital requirements as of 30 September 2026 and 31 December 2025.

BRD - GROUPE SOCIÉTÉ GÉNÉRALE PROFILE

BRD – Groupe Société Générale ("BRD" or "the Bank") was set up on December 1st, 1990 as an independent bank with the legal status of a joint-stock company and with the share capital mainly held by the Romanian State, by acquiring assets and liabilities of the former Banca de Investitii ("the Investment Bank").

In March 1999, Société Générale ("SG") bought a stake representing 51% of the share capital, increasing its holding to 58.32% in 2004, through the acquisition of the residual stake from the Romanian State. As at September 30, 2026, SG was holding 60.17% of the share capital.

BRD – Groupe Société Générale has been quoted on Bucharest Stock Exchange ("BVB") with the symbol "BRD" since January 15, 2001.

BRD identification data are the following:

- **Head Office:** 1-7 Blvd. Ion Mihalache, sect. 1, Bucharest
- **Phone:** 021.3016100
- **Sole registration number with the Trade Registry:** J1991000608402
- **Fiscal Code:** RO 361579/10.12.1992
- **Order number with the Trade Registry:** J40-608-1991
- **Number and date of registration in the Credit Institutions Register:** RB - PJR - 40 – 007/18.02.1999
- **Share capital subscribed and paid:** 696,901,518 RON
- **Regulated market on which the issued securities are traded:** Bucharest Stock Exchange Premium Tier
- **The main characteristics of securities issued by the Bank:** ordinary shares with a nominal value of 1 RON

EXTERNAL RATING

As at September 30, 2026, the Bank had the following ratings:

Fitch (last rating update: September-2026*)	Rating
Foreign-Currency Short-Term Issuer Default Rating	F2
Foreign-Currency Long-Term Issuer Default Rating	BBB+

Moody's (last rating update: March-2026**)	Rating
Domestic Currency Short-Term Deposit	Prime-2
Domestic Currency Long-Term Deposit	Baa1
Foreign Currency Short-Term Deposit	Prime-2
Foreign Currency Long-Term Deposit	Baa1

** Fitch affirmed LT IDR at 'BBB+' with Negative Outlook in September 2026; the Negative Outlook reflects that on the Romanian sovereign*

*** On the last rating action, from March 2026, Moody's affirmed BRD's Baa1 long-term deposit ratings; outlook remained negative (the negative outlook of BRD's long-term deposit ratings is driven by the negative outlook on the sovereign).*

BRD GROUP („GROUP") consolidates the following entities:

- BRD – Groupe Société Générale SA;
- BRD Sogelease IFN SA;
- BRD Asset Management SAI SA.

On 9 March 2026, BRD Groupe Société Générale, through BRD Asset Management S.A.I., entered into an agreement with Patria Bank for the acquisition of 99.9944% of Patria Asset Management, a company operating on the Romanian UCITS market. Starting 30 September 2026, BRD Asset Management S.A.I consolidated Patria Asset Management in its accounts and recognized a goodwill from this transaction of RON 22.8 million representing the difference between the acquisition price of RON 28.9 million and Patria Asset Management fair value of net assets at the date of acquisition.

SOCIÉTÉ GÉNÉRALE PROFILE

Société Générale was set up in 1864 as a banking company, registered in France. Its registered office is located on 29 Boulevard Haussmann, 75009, Paris, France, and its shares are listed on the Paris Stock Exchange.

Societe Generale is a top tier European Bank with around 110,000 employees serving 27 million clients in 58 countries across the world. For over 160 years, Societe Generale has been providing corporate, institutional, and individual clients with a wide array of value-added advisory and financial solutions.

The Group operates in three complementary business areas, embedding ESG offerings for all its clients:

- *French Retail Banking, Private Banking and Insurance,* with leading retail bank SG and insurance franchise, premium private banking services, and the leading digital Bank Boursobank.
- *Global Banking and Investor Solutions,* a top tier wholesale bank offering tailored-made solutions with distinctive global leadership in equity derivatives, and structured finance.
- *Mobility, International Retail Banking and Financial Services,* comprising well-established universal banks (in Romania, Czech Republic and several African countries), and Ayvens, a global player in sustainable mobility, as well as specialized financing activities.

The latest credit ratings of Société Générale are available at
htts://investors.societegenerale.com/en/financial-and-non-financial-information/ratings/credit-ratings

BRD POSITION WITHIN SOCIÉTÉ GÉNÉRALE

SG has been present in Romania since 1980, being the only significant bank from Western Europe that was present in Romania during the communist era.

In 1999, it takes part in the process of privatization of Banca Romana pentru Dezvoltare and acquires 51% of the Bank's share capital.

Starting with this period, BRD lined up its operational procedures and business practices to those of the SG Group.

BRD is part of the international network of Société Générale, managed by Mobility, International Retail Banking and Financial Services (MIBS) that aims to offer a broad range of products and services to individuals, professionals and corporates.

DIVIDENDS

The Annual Shareholders' Meeting held on April 29, 2026 approved the distribution of a gross dividend per share of 1.0752 RON. The total amount of dividends is RON 749.3 million, corresponding to a payout ratio of 50% from 2025 distributable profit. Dividend payment started on June 05, 2026 and the deferred payment date is November 27, 2026.

As at September 30, 2026, the amount of gross dividends effectively paid was RON 746.5 million, representing 99.62% out of the total approved dividends from 2025 distributable profit.

2. ECONOMIC AND BANKING ENVIRONMENT

During Q2 2026, EU economic activity regained momentum, with GDP increasing by 0.7% QoQ after a rather stable evolution in the previous quarter (0.1% QoQ in Q1 2026). Growth was supported primarily by household consumption and net exports, partly offset by a negative contribution from inventory changes. In annual terms, EU GDP growth accelerated to 1.4% YoY, compared with 0.9% YoY in Q1 2026, indicating a gradual improvement in economic outlook.

In contrast, Romania remained among the weakest performers in the EU. Economic activity was broadly unchanged on a quarterly basis in Q2 2026, following a similarly weak performance in the previous quarter, while GDP contracted by 1.9% YoY and 1.6% YoY during H1 2026 on a seasonally adjusted basis. These developments suggest that Romanian economy remains fragile and that the recovery path is likely to be slower than previously anticipated. The latest IMF projections published in October 2026 further downgraded Romania's outlook, forecasting a GDP contraction of 0.5% in 2026, compared with the 0.7% growth expected in its previous report (WEO from April 2026), reflecting the combined effects of fiscal consolidation measures, weak domestic demand, elevated inflation and a challenging external environment. The IMF expects a recovery in 2027, with GDP growth accelerating to 2.2%.

Romania's National Recovery and Resilience Plan (NRRP) entered its final funding stage in H2 2026. Following the submission of the fifth payment request in August and the final payment request to the European Commission on 30 September 2026, Romania completed the process of requesting NRRP funds. The final request, with a gross value of EUR 6.04 billion, covers 104 milestones and targets across transport, energy, healthcare, education, digitalization of public services, water and waste management, and improvements to the energy efficiency of homes. According to government estimates, Romania has absorbed more than 90% of available grant funding and over 95% of loan financing under the programme, although some funds may be forfeited due to delays in the implementation of selected reform commitments. The European Commission is currently assessing the fulfilment of the final package of reforms and investments before disbursement of the remaining funds.

Global inflation remained one of the key macroeconomic challenges throughout 2026. In the euro area, headline inflation trended gradually higher over the course of the year, rising from levels close to ECB's 2% medium-term target to around 3% by Q3 2026. In Romania, inflation eased considerably beginning Q3 2026, from the double-digit levels recorded in the first half of the year, to 6.6% in September 2026, but growing from 6.2% in Aug-26, confirming maintained pressure. Despite this improvement, Romania continued to register one of the highest inflation rates in the EU, reflecting still-elevated services prices, energy costs and the lagged effects of previous fiscal measures. In its latest projections, the National Bank of Romania (NBR) revised upward its inflation forecast to 6.1% at end-2026 and 3.4% at end-2027, from 5.5% and 2.9%, respectively.

In terms of monetary policy, NBR maintained its key rate at 6.5% throughout 2026, reflecting a cautious stance amid still elevated inflation and heightened uncertainty surrounding the economic outlook. Financial market conditions remained relatively tight. While Romanian government bond yields initially benefited from progress in fiscal consolidation and expectations of lower inflation, investor sentiment continued to be affected by domestic fiscal challenges, political environment and the associated uncertainties, as well as the broader geopolitical context. As a result, NBR maintained a prudent monetary policy stance despite the ongoing disinflation process.

As regards the banking activity, the annual growth rate of gross loans outstanding reached an average of +9.5%* YoY during January - August 2026, only marginally lower compared to last year average growth (9.7%* during 9M 2025). The dynamic was sustained predominantly by corporates (average of +11.2%* YoY in 8M 2026), while individuals' lending remained supportive (average of +7.2% YoY during 8M 2026), although decelerating compared to 9M 2025 (average of 9.4%* YoY), primarily as a result of a sharp decline in consumer lending growth (+9%* YoY during 8M 2026 vs. +14.9%* YoY during 9M 2025). Lending activity on housing segment increased slightly to an average of +6.0%* YoY during 8M 2026 vs. +5.7%* YoY average growth rate in 9M 2025.

The annual deposits dynamic decelerated significantly during 8M 2026, on both individuals and corporates, reaching an average growth of +6.7%* YoY from an average of +10.7%* YoY during 9M 2025. Both segments, appear to have shifted from foreign exchange to local currency during the analysed period, after a prolonged period of preference towards the former.

On asset quality, the Romanian banking sector remains classified into EBA's "low risk" bucket with a level of non-performing loans (NPL) ratio <3% and NPL coverage ratio > 55%. In 2026, NPL ratio increased marginally, reaching 2.89% at end August 2026 (vs. 2.71% at December 2025 end). NPL coverage ratio stood high at 62.6% at June 2026 end (vs. 62.4% at December 2025 end).

The Romanian banking system remains well capitalized, as reflected by the solid capital adequacy ratio of 23.6% as at June 2026 end (vs. 24.4% as of December 2025 end) supported by robust profitability and a conservative risk profile. According to NBR's June 2026 Financial Stability Report, the banking system continues to demonstrate resilience despite an increasingly uncertain external and domestic environment.

The Romanian banking system maintains a strong liquidity position, with a Liquidity Coverage Ratio of 237% as of August 2026 end (vs. 257% at December 2025 end), remaining comfortably above the minimum regulatory requirement (100%) and the EU average (159% at June 2026 end).

3. COMMERCIAL ACTIVITY

BRD ensures continuous client access through a combination of branch-based and remote service channels. The physical network remained stable over the past six months, at 334 branches since March 2026 end (vs. 347 as of December 31, 2025 and 356 as of September 30, 2025), with 24H self-services capabilities for cash transactions available in 275 branches.

BRD leveraged its solid You BRD customer base (1.9m users at Sep-26 end) to further increase digital engagement, with e-banking adoption continuing to support higher transaction activity. As a result, 34 million payments have been executed via YouBRD (+22% YoY vs. 9M 2025), amounting to c. RON 54 billion in value (+18% YoY vs. 9M 2025). Digital channels continued to gain traction across key customer interactions, including payments, lending and deposits – online unsecured consumer loan production reached 56%, whereas savings and deposits opened in You BRD, accounted for 55% of total deposits opened on all channels, in 9M 2026.

In 9M 2026, BRD continued to enhance the You BRD digital ecosystem through the rollout of new customer-centric functionalities, including travel insurance for standard cardholders, Click to Pay integration for secure online card payments, and pre-approved Expresso consumer loans available directly within the mobile application. The bank also expanded its insurance offering with the introduction of RCA insurance in You BRD Mobile, strengthened digital onboarding by enabling remote identification and activation using the new electronic identity card (CEI), and introduced State Treasury payment capabilities. In addition, BRD broadened its RoPay functionality to support a wider range of QR-based payments, including merchant, e-commerce, POS and invoice payments, further enhancing the digital customer experience.

BRD's cashback loyalty program available in YouBRD since June 2024, enjoys a continuously increasing penetration rate. As of 30 September 2026, ~ 1.3 million clients were enrolled in the program and RON 5.3 million were granted in cashback since launch.

BRD held a market share of approximately 10% of total assets at June 30, 2026, according to its internal computation.

The structure of customers' net loans at Group level evolved as follows:

RON bln	Sep-25	Dec-25	Sep-26	vs. Dec-25	vs. Sep-25
Retail	**30.5**	**30.7**	**33.2**	**8.1%**	**8.9%**
Individuals	29.0	29.3	31.8	8.6%	9.8%
Small business	1.5	1.4	1.4	-1.0%	-9.1%
Non-retail	**20.8**	**23.3**	**24.7**	**6.2%**	**18.7%**
SMEs	7.6	7.6	8.4	9.7%	9.6%
Large corporate	13.2	15.6	16.3	4.5%	24.0%
Total net loans	**51.3**	**54.0**	**57.9**	**7.3%**	**12.9%**
Finance lease receivables	2.1	2.1	2.2	0.5%	1.8%
Total net loans, including leasing	**53.4**	**56.1**	**60.1**	**7.0%**	**12.4%**

Net loans outstanding, including leasing financing, amounted to RON 60.1 billion, representing a +12.4% YoY increase compared to the end of September 2025. Growth was broad-based across corporate and retail portfolios, with corporate lending leading the expansion (+18.7% YoY), supported by a strong performance in the large corporate segment (+24.0% YoY). Retail lending grew by +8.9% YoY, driven mainly by robust demand for housing loans, while consumer lending showed a weaker dynamic, being more sensitive to inflationary environment.

Individuals' loan production increased by +3.4% YoY to RON 10.9 billion in the first nine months of 2026, with demand for housing loans as main growth driver. Housing loan production/ origination reached RON 4.8 billion, representing an annual increase of +9.5% YoY. Consumer loan production reached RON 6.0 billion, slightly decreasing on a yearly basis (-0.9% YoY in 9M 2026).

In the first nine months of 2026, BRD continued to support its customers' transition to sustainable activities. Sustainable financing production reached EUR 2.8 billion cumulated starting with 2021, of which EUR 512 million in 9M 2026.

In Q3 2026, BRD participated, alongside an international consortium of lenders, in structuring a financing package of up to EUR 561 million for the Dama Solar photovoltaic project in Arad County, developed by Rezolv Energy, which was labeled as green financing. Once completed, the project will become the largest onshore renewable energy project in the European Union.

BRD also provided Construcții Erbașu S.A. with a green loan of RON 60.7 million to co-finance a strategic circular economy project: the development of the newest recycling facility for construction and demolition waste in Căldăraru, Ilfov County. The loan has a 10-year tenor and is aligned with the Loan Market Association (LMA) Green Loan Principles.

Moreover, BRD participated in the EUR 284 million financing of the Gurbănești wind farm developed by Greenvolt Power. With an installed capacity of 253 MW and 42 state-of-the-art wind turbines, the project will make a significant contribution to increasing renewable energy generation and supporting the decarbonization of Romania's power system.

BRD successfully supported Autonom Services' EUR 30 million sustainability-linked bond issuance. The transaction marked Autonom's fourth bond issuance and its third sustainability-linked issuance. BRD acted as Co-Arranger and Bookrunner, Sole Sustainability-Linked Bond Structuring Agent, and Listing Agent.

In October 2026, BRD continued its involvement as a founding partner in the fifth edition of the Climate Change Summit. The 2026 edition, held under the theme "Infrastructures of our Future", convened over 2,100 participants, more than 70 speakers and leading international institutions, highlighting the role of sustainable infrastructure investment and financial institutions in supporting climate resilience and long-term economic competitiveness.

In August 2026, BRD introduced its first loan with embedded derivative solution, combining financing and interest rate risk protection within a single product for corporate clients. This innovative offering provides greater predictability over financing costs, simplifies administrative and accounting processes, and enables companies to fix or cap borrowing costs in a volatile interest rate environment, reinforcing BRD's advisory and risk-management capabilities.

In August 2026, BRD Sogelease secured a EUR 100 million loan from the EIB to expand financing for Romanian SMEs and mid-caps, supporting investments aimed at business growth, productivity and sustainable development. The facility will enable the provision of long-term financing in both EUR and RON on attractive terms across a wide range of sectors. Approximately 80% of the funding will support investments in Romania's less developed cohesion regions and 15% of the facility is earmarked for green projects, including renewable energy, energy efficiency and sustainable transport. The transaction strengthens BRD Sogelease's capacity to support Romanian businesses and builds on a long-standing partnership with the EIB, which has provided EUR 305m in financing to the company over the past decade. The agreement enhances BRD Group's ability to support corporate investment and sustainable finance initiatives, while reinforcing its position as a key financing partner for SMEs and mid-cap companies in Romania.

Customers' deposits structure at Group level evolved as follows:

RON bln	Sep-25	Dec-25	Sep-26	vs. Dec-25	vs. Sep-25
Retail	**43.6**	**45.5**	**47.0**	**3.2%**	**7.8%**
Individuals	37.3	39.3	40.3	2.7%	8.1%
Small business	6.3	6.3	6.7	6.2%	6.2%
Non-retail	**28.4**	**29.5**	**26.5**	**-10.2%**	**-6.8%**
SMEs	10.0	10.4	11.1	6.5%	11.2%
Large corporate	18.5	19.1	15.4	-19.3%	-16.5%
Total deposits	**72.0**	**75.0**	**73.5**	**-2.1%**	**2.0%**

The deposit base advanced by +2.0% YoY as of end of September 2026, driven by retail client segment. Individuals' deposits, a stable and diversified funding source, accounting for 55% of total deposits, rose by +8.1% YoY. Deposits from corporates decreased by -6.8% YoY, reflecting adjustment of remuneration rate to liquidity and market conditions, fluctuating liquidity needs among large corporates, alongside increased competition for customers resources.
In June 2026, BRD was named "Best Sub-Custodian Bank in Romania" by Global Finance for the 11th consecutive year, recognizing its excellence in client service, operational efficiency, technological capabilities and market expertise. In addition, BRD also achieved the highest score for local sub-custody service quality in the latest Global Custodian survey, further reinforcing its leadership position in the Romania's custody market and its strong reputation among international institutional investors. These distinctions reaffirm BRD's leadership in Romania's custody services market and reflect the Bank's ongoing commitment to operational excellence, innovation, and adaptation to the continuously evolving requirements of international financial markets.

For the evolution of the main components of the net banking income please refer to "Financial results" section.

SUBSIDIARIES' ACTIVITY

BRD SOGELEASE IFN SA

During the first nine months of 2026, BRD Sogelease strengthened its role in supporting investment in the real economy, maintaining positive development in an economic environment characterised by transformation and more selective investment decisions.

Companies continue to invest in asset modernisation, technology, efficiency and productivity growth. In this context, leasing represents an important tool for supporting investment and strengthening companies' competitiveness.

As of 30 September 2026, BRD Sogelease's net leasing portfolio reached RON 2.2 billion, representing a 1.8% increase compared with the same period of the previous year, while new leasing production amounted to RON 820.4 million.

The portfolio evolution reflects balanced growth, supported by close relationships with clients and a focus on financing investments that generate long-term economic value, while maintaining a prudent approach to risk and portfolio quality.

Going forward, BRD Sogelease will continue to support productive investment and the modernisation of companies' asset base, thereby contributing to the development of the real economy.

BRD ASSET MANAGEMENT SA

BRD Asset Management holds a top position on the UCITS market in Romania. At the end of August 2026, its market share* reached 23.4%, slightly down compared to 25.2% at the end of September 2025, in a highly competitive market. The assets under management increased to RON 10.99 billion from RON 8.05 billion at September 2025 end. BRD Asset Management's product portfolio comprises 12 diverse investment funds that provide solutions for over 220,000 clients (+27 thousand clients YoY), including both individual investors and companies. BRD Asset Management's wide array of products enables clients to access a variety of asset classes and strategies, ranging from conservative fixed-income funds to dynamic equity funds or target date funds, ensuring suitable options regardless of objectives, risk profile, or financial aspirations.

In March 2026, BRD Asset Management signed an agreement with Patria Bank to acquire 99.9944% of Patria Asset Management, a company active in the Romanian UCITS market. The Financial Supervisory Authority (ASF) approved in July 2026 the acquisition of SAI Patria Asset Management by BRD Asset Management.

**market share computation based on total open-end funds assets under management*

4. Financial Results and Ratios

Financial position analysis

The below financial position analysis is done based on the standalone ("The Bank") and consolidated ("The Group") financial statements prepared according to IFRS ("International Financial Reporting Standards"), for the period ended September 30, 2026 and comparable historical periods.

Financial position – assets

During the first nine months of 2026, the Group's total assets increased by +6.0% YoY, and by +6.2% at Bank level. Compared to 2025 end, total assets increased by +1.6% at Group level and +1.5% at Bank level.

The asset structure is presented below:

The Group

Assets (RONm)	Sep-25	Dec-25	Sep-26	% total	vs. Dec-25	vs. Sep-25
Cash and cash equivalents	13,497	12,080	11,683	11.7%	-3.3%	-13.4%
Due from banks	3,802	6,497	4,748	4.8%	-26.9%	24.9%

Loans and advances to customers

The net loans' outstanding amount to customers registered a resilient year-on-year increase in spite of the fragile economic environment (Group: +12.4% YoY, of which leasing +1.8%; Bank: +13.0% YoY). Growth remained dynamic across client segments, as elaborated above in Chapter 3.

Cash, cash equivalents and due from banks

Cash and cash equivalents and due from banks decreased by approximately 5% YoY at Bank and Group level. These items accounted for 17% of the Bank's total assets and 16.5% for the Group at September 30, 2026.

The minimum compulsory reserve requirement with the National Bank of Romania accounted for 30.9% of this aggregate at September 30, 2026 (28.3% at September 30, 2025 and 26.9% at December 31, 2025) at Group level and amounted to RON 5,076 million. The level of RON and FX minimum reserve requirements for liabilities with residual maturity of less than 2 years are at 8% and 5% respectively, unchanged from May 2015 for RON and from November 2020 for FX.

Other financial instruments

Other financial instruments include financial assets at fair value through other comprehensive income, debt securities at amortised cost, financial assets at fair value through profit and loss, derivatives and other financial instruments held for trading, investments in associates and joint ventures, and investment in subsidiaries (only at Bank level).

As of September 30, 2026, these items totalled RON 20.7 billion for the Group, accounting for 20.8% of assets (Bank: RON 20.7 billion, 21.3% of assets). This represents an increase of +0.4% versus September 30, 2025 for the Group and the Bank, mainly explained by the increase in the value of debt securities at amortised cost and derivatives, largely offset by the lower amount of debt instruments at fair value through other comprehensive income, as a result of natural amortisation of the portfolio.

TANGIBLE AND INTANGIBLE ASSETS

The tangible and intangible assets increased by +3.4% compared to September 30, 2025 for the Group (Bank: +2.1%) and accounted for 1.8% of total assets for the Group and the Bank, with land and buildings representing the largest part of this item.

The total value of investments during the first 9 months of 2026 was RON 180 million for the Group and RON 174 million for the Bank, compared to RON 177 million for the Group and RON 175 million for the Bank during the same period in 2025. There is no capitalized research and development expenditure.

FINANCIAL POSITION – LIABILITIES

The comparative statement of liabilities is as follows:

THE GROUP

Liabilities and shareholders equity (RONm)	**Sep-25**	**Dec-25**	**Sep-26**	**% total**	**vs. Dec-25**	**vs. Sep-25**
Due to credit institutions	9,825	9,957	12,023	12.1%	20.7%	22.4%
Due to customers	72,018	75,045	73,489	73.8%	-2.1%	2.0%
Other liabilities	2,117	2,465	3,212	3.2%	30.3%	51.7%
Total equity	**9,991**	**10,576**	**10,877**	**10.9%**	**2.8%**	**8.9%**
Total liabilities and shareholders equity	**93,951**	**98,044**	**99,602**	**100.0%**	**1.6%**	**6.0%**

THE BANK

Liabilities and shareholders equity (RONm)	**Sep-25**	**Dec-25**	**Sep-26**	**% total**	**vs. Dec-25**	**vs. Sep-25**
Due to credit institutions	7,334	7,365	9,495	9.8%	28.9%	29.5%
Due to customers	72,277	75,505	73,883	76.3%	-2.1%	2.2%
Other liabilities	2,042	2,396	3,138	3.2%	31.0%	53.7%
Total equity	**9,574**	**10,152**	10,367	**10.7%**	**2.1%**	**8.3%**
Total liabilities and shareholders equity	**91,227**	**95,417**	**96,883**	**100.0%**	**1.5%**	**6.2%**

AMOUNTS OWED TO CUSTOMERS

The Group, as well as the Bank, enjoys a solid customers' savings base. At September 30, 2026, amounts owed to customers increased by +2.0% YoY at Group level (Bank: +2.2% YoY), as detailed in Chapter 3. They accounted for 73.8% of the total liabilities and shareholders' equity at Group level and for 76.3% at Bank level.

AMOUNTS OWED TO CREDIT INSTITUTIONS

Amounts owed to credit institutions represent borrowings from the parent and International Financial Institutions and interbank deposits and stood at 13.6% of the total liabilities at Group level and 11.0% at Bank level as at September 30, 2026.

BRD Group's borrowings from Societe Generale totalled RON 8.3 billion (9.4% of liabilities) at September 30, 2026. These include 5 senior non-preferred loans in amount of EUR 950 million, namely: EUR 450 million renewed in December 2025, with an initial term of 3 years and a call option at 2 years; EUR 100 million drawn in December 2025, with initial term at 3 years and a call option at 2 years; EUR 150 million drawn in June 2024 with an initial term of 6 years and a call option at 5 years; EUR 100 million with initial term at 7 years and a call option at 6 years and EUR 150 million with an initial term of 8 years and a call option at 7 years, both drawn in December 2023; and 2 subordinated loans in amount of EUR 250 million (EUR 100 million drawn in December 2021, respectively EUR 150 million in June 2022, both with an initial term of 10 years and a call option at 5 years).

SHAREHOLDERS' EQUITY

Shareholders' equity increased by +8.9% YoY for the Group and by +8.3% YoY for the Bank compared to September 30, 2025, primarily attributed to higher retained earnings and lower negative reserve given the favourable Government bonds yield evolution (though growing vs December 2025 end, pressured by the tensed political context).

The structure of the shareholders' equity evolved as follows:

THE GROUP

Shareholders' equity (RONm)	**Sep-25**	**Dec-25**	**Sep-26**	**vs. Dec-25**	**vs. Sep-25**
Share capital	2,516	2,516	2,516	0.0%	0.0%
Accumulated other comprehensive income/(loss)	(1,087)	(890)	(1,015)	14.1%	-6.6%
Retained earnings and other reserves	8,562	8,950	9,377	4.8%	9.5%
Total equity	**9,991**	**10,576**	**10,877**	**2.8%**	**8.9%**

THE BANK

Shareholders' equity (RONm)	**Sep-25**	**Dec-25**	**Sep-26**	**vs. Dec-25**	**vs. Sep-25**
Share capital	2,516	2,516	2,516	0.0%	0.0%
Accumulated other comprehensive income/(loss)	(1,087)	(890)	(1,015)	14.1%	-6.6%
Retained earnings and other reserves	8,145	8,526	8,867	4.0%	8.9%
Total equity	**9,574**	**10,152**	**10,367**	**2.1%**	**8.3%**

LIQUIDITY POSITION

Both the Bank and the Group maintained a balanced structure of resources and placements and a solid liquidity level over the analysed period, allowing for a higher increase of loans versus deposits.

The net loans to deposits ratio reached 81.8% for the Group, including financial leasing receivables at September 30, 2026 (from 74.8% at December 31, 2025 and 74.2% at September 30, 2025) and 77.9% for the Bank (from 71.0% at December 31, 2025 and 70.5% at September 30, 2025).

9M-2026 FINANCIAL RESULTS

The comparative income statement of the Group for the periods January – September 2026 and January – September 2025 is presented below:

RONm	9 months to 30-Sep-25	9 months to 30-Sep-26	Variation
Net banking income	**3,252**	**3,341**	**2.7%**
- net interest income	2,314	2,378	2.8%
- fees and commissions, net	675	671	-0.7%
- other banking income	263	292	10.9%
Operating expenses	**(1,638)**	**(1,639)**	**0.05%**
- personnel expenses	(778)	(721)	-7.4%
- non-personnel expenses	(678)	(709)	4.6%
- contribution to Guarantee Fund and Resolution Fund	(49)	(0)	-100.0%
- tax on turnover	(133)	(209)	56.8%
Gross operating profit	**1,614**	**1,702**	**5.5%**
Net impairment gain/(loss) on financial instruments	(195)	(254)	29.9%
Profit before income tax	1,419	1,448	2.1%
Profit for the period	**1,158**	**1,176**	**1.5%**
Profit attributable to equity owners of the parent	1,158	1,176	1.5%

The comparative income statement of the Bank for the periods January – September 2026 and January – September 2025 is presented below:

RONm	9 months to 30-Sep-25	9 months to 30-Sep-26	Variation
Net banking income	**3,150**	**3,188**	**1.2%**
- net interest income	2,236	2,300	2.9%
- fees and commissions, net	640	611	-4.6%
- other banking income	273	277	1.5%
Operating expenses	**(1,595)**	**(1,593)**	**-0.1%**
- personnel expenses	(749)	(691)	-7.7%
- non-personnel expenses	(663)	(693)	4.5%
- contribution to Guarantee Fund and Resolution Fund	(49)	(0)	-100.0%
- tax on turnover	(133)	(209)	56.8%
Gross operating profit	**1,555**	**1,595**	**2.6%**
Net impairment gain/(loss) on financial instruments	(186)	(247)	32.8%
Profit before income tax	1,368	1,348	-1.5%
Profit for the period	**1,118**	**1,090**	**-2.5%**

During 9M 2026, BRD Group's revenues reached RON 3,341 million, up by +2.7% YoY, reflecting resilient performance despite challenging environment and persistent competitive pressures.

Net interest income, contributing more than 70% of total revenues, increased by +2.8% YoY in 9M 2026, up to RON 2,378 million. Interest income increased by 6% YoY, amid broad based growth in lending volumes, across both retail and companies' segments, higher revenues from interbank placements and securities portfolio, partially moderated by negative rate effect linked to lower customer loans yields. The increase in interest expense (+11.3% YoY) was mainly driven by larger funding base, while remuneration continued to be pressured given the continued intense competition on customers resources.

Net fees and commissions registered a mild contraction of -0.7% YoY over the nine months period, reaching RON 671 million mainly driven by account management fees and e-banking, while higher AuM and improved client activity supported growing revenues from custody, brokerage, asset management and off-balance sheet commitment.

Other banking income increased by 10.9% YoY, mainly reflecting the recognition of one-off revenue and the previous year base effect from the collective provision for future potential litigations related to allegedly abusive clauses in loan contracts, while trading result printed lower in a volatile context. On standalone view, an additional effect is driven by lower dividends received.

Operating expenses remained broadly stable over the analysed period, despite the inflationary environment and the higher turnover tax impact in 9M 2026, following the increase in the tax rate from 2% to 4% effective July 2025. This performance reflects continued strict management of costs as well as no contribution being required to the Deposit Guarantee Fund and Resolution Fund (FGDB&RF) in

2026. Staff costs decreased by -7.4% YoY during 9M 2026 underpinned by a reduced FTE base following network downsizing, workforce optimisation initiatives, reflecting the need to adapt to a rapidly evolving and highly competitive environment. Other costs (excluding tax on turnover and FGDB&RF contributions in 2025) increased by +4.6%, with higher IT&C related expenses the principal driver, reflecting depreciation of past investments and ongoing infrastructure and digitalization initiatives. The tax on turnover amounted to RON 209 million for 9M 2026 vs RON 133 million for 9M 2025 reflecting the doubling of the tax rate from 2% to 4% starting July 2025.

BRD Group registered an improved operating performance, with gross operating income amounting to RON 1,702 million in 9M 2026, +5.5% YoY. Excluding the tax on turnover and FGDB&RF cumulated contributions (from 2025 cost base, no contribution was required for 2026), C/I was significantly reduced at 42.8% in 9M 2026 (vs. 44.8% in 9M 2025), -197 bps YoY.

The loan book quality remained solid throughout 9M 2026, with the Bank's NPL ratio at 2.7% at end September 2026, below the banking system average (2.9% at end August 2026), and with a comfortable NPL coverage level of 67.4%. BRD Group net cost of risk increased to RON 254 million in 9M 2026, compared to RON 195 million in the same period of the previous year, mainly reflecting the expected risk costs in a challenging macroeconomic context, alongside portfolio developments and updated macroeconomic assumptions.

BRD Group net result amounted to RON 1,176 million (vs. RON 1,158 million in 9M 2025), up by +1.5% YoY while ROE reached 14.6% in 9M 2026 compared to 15.9% in 9M 2025. Excluding the tax on turnover, ROE would stand at 16.9% in 9M 2026 vs 17.5% in 9M 2025. ROA stands at 1.6% in 9M 2026 (vs. 1.7% in 9M 2025).

At Bank level, the net result amounted to RON 1,090 million versus RON 1,118 million in 9M 2025.

Neither the Bank's, nor the Group's revenues depend on a single or group of connected customers; hence there is no risk that the loss of a customer might significantly affect the income level.

CAPITAL ADEQUACY (THE BANK)

RONm	**Sep-25**	**Dec-25**	**Sep-26**
Tier 1 capital	9,341	9,778	8,553
Tier 2 capital	1,270	1,275	1,320
TOTAL OWN FUNDS	**10,612**	**11,053**	**9,873**
Capital requirements	**3,266**	**3,396**	**3,742**
Credit risk (including counterparty risk)	35,459	36,503	40,623
Market risk	169	311	316
Operational risk	5,018	5,453	5,453
CVA risk	178	182	386
Total risk exposure amount	**40,825**	**42,449**	**46,778**
Regulatory CAR	**26.0%**	**26.0%**	**21.1%**
Tier 1 ratio	**22.9%**	**23.0%**	**18.3%**
Regulatory CAR, excl. regulatory temporary treatments	**22.5%**	**23.2%**	**n.a.**
Tier 1 ratio, excl. regulatory temporary treatments	**19.5%**	**20.3%**	**n.a.**

Notes:
CAR at September 30, 2026 is preliminary
Own funds at September 30, 2025 include 50% of the H1-2025 net profit
Own funds at September 30, 2026 do not include interim profit

BRD's regulatory own funds at September 30, 2026 consist of common equity capital (CET1) and Tier 2 instruments.

At Bank level, the capital adequacy ratio reached 21.1% at September 30, 2026. The year-on-year variation is due to the following:

- At September 30, 2026, own funds reflect the full impact of unrealized gains and losses arising from the valuation of assets at fair value through OCI, as regulatory temporary treatments, as per art. 468 of Regulation (EU) 2024/1623, ceased to exist starting January 1, 2026. As a reminder, BRD applied starting Q3 2024, the OCI quick fix adjustment as per art. 468 of Regulation (EU) 2024/1623, regarding the temporary treatment of unrealized gains and losses resulting from the valuation of assets at fair value through OCI. On a like-to-like basis, without the regulatory temporary treatments, CAR was 22.5% at September 30, 2025.

- Integration in own funds of 2025 retained profit
- Capital requirements were higher mainly driven by the increase of capital requirements for credit risk, in the context of rising lending activity, increasing Romanian sovereign exposures denominated in EUR and a higher applicable risk weight to these exposures (25% in 2026 from 10% in 2025 to, as per Regulation (EU) 2024/1623).

The Tier 1 ratio was 18.3% at September 30, 2026 versus 19.5% at September 30, 2025 and 20.3% at December 31, 2025, excluding the regulatory temporary treatments.

SUBSEQUENT EVENTS IDENTIFIED AFTER THE REPORTING DATE

Please refer to note 40 Contingencies regarding Competition Council litigation status update, from Condensed Consolidated and Separate Interim Financial Statements, 30 September 2026

5. CONCLUSIONS

Romania's economy remained fragile in H1 2026, showing signs of slow recovery following the weak performance recorded in late 2025. The growth outlook stayed subdued, as fiscal consolidation efforts, soft domestic demand, elevated inflation and external uncertainties continued to weigh on economic activity.

In this challenging macroeconomic context, BRD's commercial momentum kept solid. As of September 2026 end, net loans outstanding, including leasing financing, rose by +12% YoY, thanks to broad-based growth across segments. Large corporates and private individuals customers remained the main contributors to loan growth, with increases of +24% YoY and +10% YoY respectively. BRD continued to consolidate its position on Romania's sustainable financing market, with cumulated sustainable finance production of EUR 2.8 billion since 2021, of which EUR 512 million in the first 9 months of 2026.

Funding sources remained solid and well-diversified, sustained by higher collection from private individuals. Beyond its deposit offering, BRD provides clients with access to a broad range of investment products and asset classes through BRD Asset Management, one of the leading players on Romania's growing UCITS market, holding a 23.4% market share at August 2026 end.

Improving customer journey continued to be a core focus of BRD's strategy. Thus, the bank expanded the YouBRD digital ecosystem with new payment and insurance functionalities, enhancing convenience and the overall digital customer experience. The number of transactions increased by +22% YoY to 34 million in the first nine months of the year, whereas the value of transactions remained high, at c. RON 54 billion, +18% YoY vs. 9M 2025.

Overall, BRD delivered strong commercial momentum in a competitive market, supported by solid loan growth and an expanding retail deposit base. Higher volumes supported revenues growth, although their impact was partially constrained by margin pressure. At the same time, rigorous cost management and efficiency initiatives measures kept operating expenses broadly flat even within an inflationary environment. BRD Group ended the first nine months of 2026 with RON 1,176 million in net result and high ROE of 17%, excluding the tax on turnover.

The interim financial report as at September 30, 2026 has not been audited.
