Significant events to report: Update on the cybersecurity incident of 30 October 2026 – MyBRK

Further to the current report dated 2 November 2026, BRK Financial Group S.A. informs investors of the preliminary findings of the investigations into the cybersecurity incident of 30 October 2026 involving the my.brk.ro portal, which is used to open trading accounts online. The incident was detected by the monitoring systems, and prompt measures were taken to isolate the affected server.

Technical investigations confirmed unauthorized access to the my.brk.ro portal server, which enabled access to the database and the documents available within the application.

The technical analysis indicated that the incident was confined to the MyBRK application and did not spread to other systems, while the security of clients' assets was maintained at all times.

The competent authorities have been notified, and the assessment of the incident's impact and the process of informing potentially affected individuals are ongoing.
