

The BVB's technical specifications regarding the application starting from April 6, 2026 of the updates related to tick sizes corresponding to the shares tradeable within BVB

Based on the annual data published by ESMA that imply the updates of the liquidity bands (tick size lists) for some shares, that will become effective starting with April 6, 2026, for a compliant implementation, the following will be applied:

- On April 6th, 2026, the Pre-open stage will start at 09:30 for the markets REGS, XRSI and XRS1 (main markets for the shares tradeable within BVB)
- All existing orders at the end of the trading session of April 03, 2026 on the following shares will be deleted, considering that another liquidity band (tick size list) will be applied starting with April 06, 2026, as follows:
