EVERGENT Investments signs an investment agreement with Anima Wings SA

EVERGENT Investments has signed an investment agreement to acquire a stake in Anima Wings SA, a Romanian-owned airline. The transaction will be completed after certain conditions precedent are fulfilled.

The entry of EVERGENT Investments into the commercial aviation sector aligns with its Investment Policy and marks a new stage in its portfolio diversification by adding an investment with significant growth dynamics compared to the strategic sectors currently in the portfolio.

Air transport is a sector with high growth potential, supported by increasing demand and the modernization of Romanian airport infrastructure. In this context, Anima Wings reflects this growth potential through the accelerated expansion of its fleet, the increase in the number of international routes, and the growth in passenger numbers, adding a *growth* component to EVERGENT's portfolio.

One of the strategic investment directions of EVERGENT Investments targets companies with high appreciation potential, well-defined growth catalysts, and high-performing, results-oriented management teams.
